

June 15, 2026

To the Board of Education of Millington Community Schools:

It is with a heavy heart that I submit this letter of resignation as superintendent of Millington Community Schools, effective Tuesday, June 30, 2026, contingent upon the approval of my contract by the Board of Education of Bangor Township Schools at its regular board meeting on Monday, June 22, 2026, to serve as their next superintendent.

Over the past twenty-four years, I have found the community of Millington to be a wonderful place full of people who love and support their school and community. There is no other school in the world that I would have wanted my own three children to attend other than Millington Community Schools. I will forever treasure the memories that I will take with me and cherish the friendships I have made along the way.

I would like to thank the Board of Education of Millington Community Schools for always supporting me throughout my superintendency during the good times and the bad times. The salient feature of each individual member of the board is that each of you strive to make decisions that are truly in the best interest of the students.

Thank you to my administrative team for working tirelessly to make Millington Community Schools a better place to work and learn. I appreciate all of the hard work and dedication that each of you put into supporting the staff, students, and each other. Being a school administrator is often a thankless job because you put in a lot of time when no one else is looking. I want you to know that your efforts do not go unnoticed and that I appreciate each of you and the individual talents, heart, and creativity that you employ on a daily basis to continue to keep the district moving forward.

I would also like to thank the staff for all of the opportunities you provide to the students. Regardless of your position in the district, I have always been amazed by the individual care and concern that you all show for each and every student. Thank you for always being so kind to the students and always remember that educators sow the seeds of a harvest that they will never realize. Helping a student through a difficult time or going out of your way by simply paying attention to a student in their time of need reaps future dividends that are beyond comprehension. One singular act of kindness has the potential to make a student believe in themselves and send them down a path to a better future.

Most importantly, I would like to thank all of my students whom I have had the privilege of serving through the years. Showing up for work was never a difficult task because I enjoyed every minute of the time that I spent with all of you. There is no feeling in the world that will ever match walking through the buildings in the morning and seeing your smiling faces; the energy that each of you bring has the ability to brighten even the darkest of days. I want you all to know that you are very important to me and that I am excited to see all of the things that you are going to accomplish in your lives.

Being part of the school community brought meaning to my life and I never took for granted the awesome responsibility of working at Millington Community Schools. I wish the entire community of Millington continued success and happiness in the years to come.

Yours truly,

Steve Bouvy, Superintendent
Millington Community Schools
