All Parents and Students are welcomed. Thank you for your support of the North Star School and we hope to see everyone on August 17th.

WELCOME BACK to the 2026-27 School Year

We are excited to welcome our students, families, and staff back for the 2026–27 school year! The first day of school will be Wednesday, August 19, 2026. We are looking forward to another great year at North Star School and are excited about the opportunities and challenges ahead. Our staff is ready to work hard to provide our students with the best education possible and make this a successful year for everyone. Please join us for Back to School Night on Monday, August 17, from 5:30 p.m.–7:30 p.m. This will be a great opportunity for families to meet teachers, learn about the upcoming school year, and receive information about some of the changes taking place at North Star.

Buses will run on the first day of school. Egeland Route: Gene Rosinski, East Route: Corey Hagler, West Route: A mixture of drivers, and Modified Bisbee Route: Brent Heisler. Bus drivers will be contacting potential bus riders before the first day of school. If you do not hear from your bus driver, please contact the school. We are also still looking for bus drivers. There is a process to obtain a CDL/bus license to drive our passenger buses that hold more than 15 students, and we are happy to help interested individuals through the process. If you are interested in driving a minibus, the process is much simpler, and we will be happy to help you get started. Applications may be picked up at the school or found online on the school website.

There are some changes for the 2026-27 school year. After many years of using PowerSchool as our grading program, the state has transitioned to Infinite Campus, which will now be used by schools across North Dakota. Information about Infinite Campus has been shared with families during registration and through email. If you have questions or need assistance, please do not hesitate to contact the school. Another major change this year is the implementation of Standards-Based Grading in math for grades K–8. Standards-Based Grading will help us better monitor and communicate student progress toward specific learning standards. More information will be provided during a presentation at Back to School Night. We are fortunate to have a school nurse four days a week for the 2026–27 school year. We are excited about this additional support for our students and staff. We will continue to use Apptegy for instant alerts. If you want to receive instant alerts and have not received instant alerts, contact the school.

We are excited to welcome new staff members to our North Star team. Sonya Larson will be teaching 7th Grade English. Christina Moe will be joining our kitchen staff. Carol Rosinski will be joining us as a part-time paraeducator. Megan Larson will be a student teacher in the pre-school room. We are excited to have these individuals as part of our school community. We are still looking for paraeducators, part-time kitchen help, and bus drivers. If you or someone you know may be interested, please contact the school.

We have added six new cameras to our school surveillance system. Five of the six cameras are located outside the building and will provide excellent views of the playground and other outdoor areas around the school. The additional cameras will help us continue to provide a safe and secure environment for our students and staff.

We will continue to use Google Calendar as our most accurate source for school information, events, and schedule changes. The Google Calendar link can be found on the school website. If you would like an invitation to add the school calendar to your phone, please contact the school.

We are excited to begin another school year and look forward to working together with our students, families, and community. Thank you for your continued support of North Star School. Please remember to support your child both in and out of the classroom. Together, we can make the 2026–27 school year a great one! GO BEARCATS!

LUNCHROOM/CONCESSIONS

One reminder to students and parents is that each class and school organization is responsible to work at least two lunchroom/concessions at ball games. There are also times students are asked to bring bars to a game. If your student has another obligation on his/her assigned night, then it is his/her responsibility to find a replacement, whether that be another student or parent. The profits from these games go to each class or organization to fund activities, trips, or needed supplies. Please support North Star classes and organizations.

MEDICATION POLICY

A reminder that parents cannot send prescription medication with their student to school; the parent must bring the medication to the school office and fill out a medication dosage form. Therefore, if you have a student who takes prescription medication, please see that the medication is brought to the school by the first day.

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records.

Student Education Records Access and Amendment Procedure

Reviewing an Educational Record

The District will comply with a parent/guardian/eligible student's right to inspect educational records. This right is granted using the following procedure:

1. A request to view an educational record shall be granted by the deadline in law (45 days).
2. A request may be orally or in writing to the building principal.
3. The principal shall notify the parent/guardian/eligible student of the time and place when a record may be inspected.
4. The principal or designee shall be present when the parent/guardian/eligible student reviews the record.
5. If circumstances prevent a parent/guardian/eligible student from reviewing the educational record at the school office, the District shall prepare and mail a copy of the record or make alternative arrangements for the parent/guardian/eligible student to review the record. Any expense incurred from copying and/or mailing a record may be charged to the parent/guardian/eligible student at state rates, except as prohibited by law.

Amending an Educational Record

A parent/guardian/eligible student has the right to request an amendment to any portion of the educational record s/he believes to be inaccurate, misleading, or in violation of the student's right to privacy. A parent/guardian/eligible student shall use the following procedure to dispute or request an amendment to an educational record. The procedure shall not be used to dispute a grade, disciplinary decision, or opinions/reflections of a school official contained in an educational record.

1. Any request to amend an educational record shall be made in writing and submitted to the building principal.

The North Star School District does not discriminate on the
basis of race, color, national origin, sex, disability, or age in it programs or activities.

2. The principal shall review the request within a reasonable time and approve or deny it. The principal's decision shall be submitted to the parent/guardian/eligible student. If the principal denies the amendment request, s/he shall inform the parent/guardian/eligible student of his/her right to request an appeals hearing.
3. Requests for an appeals hearing shall be submitted to the Superintendent. The hearing shall be held within a reasonable time after the appeal request has been made.
4. The Superintendent shall serve as the hearing officer. A representative of the parent/guardian/eligible student's choosing may accompany the parent/guardian/eligible student at the parent/guardian/eligible student's expense. The parent/guardian/eligible student shall have a full and fair opportunity to present evidence related to the amendment request.
5. The superintendent's decision is final and binding and shall be submitted to the parent/guardian/eligible student at a reasonable time after the hearing.
6. If the superintendent denies the amendment request, s/he will notify the parent/guardian/eligible student within a reasonable time of his/her right to submit a written response commenting on the contested material and/or explaining the disagreement with the hearing officer's decision. This written response shall be retained and, when applicable, disseminated in accordance with law.

Directory Information
The district may disclose directory information without parental/guardian/eligible student consent if it has given parents/guardians/eligible students reasonable amount of time to opt-out of directory information release. Opt-out forms should be provided at the beginning of the school year and when a student otherwise enrolls in the District. These forms shall contain a reasonable deadline of at least 10 days for parents/guardians/eligible students to opt out.

Directory Information is defined as personally identifiable information contained in a student education record that is generally considered not harmful or an invasion of privacy if disclosed and includes:

a. Address
b. Date and place of birth
c. Dates of attendance
d. Degrees, honors, and awards received
e. Grade level
f. Most recent school attended
g. Name (first and last)
h. Participation in officially recognized activities and sports
i. Photograph
j. School email address
k. Student identification number if it cannot be used alone to access an educational record and is not the student's social security number
l. Telephone listing
m. Weight and height of members of athletic teams

The North Star School District does not discriminate on the
basis of race, color, national origin, sex, disability, or age in it programs or activities.

Annual Asbestos Notification to Parent, Students, and Employees of the North Star School District

Asbestos is a naturally-occurring mineral which has, until about 1980, been commonly used in building materials. Asbestos will not burn, is an excellent insulator, has great strength, is resistant to chemicals, and absorbs sound. Examples of asbestos-containing building material (ACBM) are vinyl floor tile, sprayed-on acoustical ceiling material, and pipe insulation. As ACBM deteriorates over time, or is disturbed by maintenance, renovation, or demolition activities, asbestos fibers may be released into the air. Inhalation of these airborne, microscopic fibers has been proven to cause such deadly diseases as lung cancer, mesothelioma (cancer of the lining of the lungs), and asbestosis (scarring of lung tissues). Uncontrolled asbestos contamination in buildings has been, and remains, a significant environmental and public health issue. In 1986, Congress enacted the Asbestos Hazard Emergency Response Act (AHERA) to require public and private, secondary and elementary schools to identify ACBM in their school buildings and take appropriate actions to control the release of asbestos fibers. In 1987, the US Environmental Protection Agency finalized a regulatory program which enforces the AHERA mandate. These regulations are incorporated within the AHERA Rule (40 C.F.R. Part 763, Subpart E).

In compliance with the AHERA Rule, the North Star School District had its building inspected by an asbestos inspector, accredited by the State of North Dakota. During that inspection, areas of suspect ACBM were identified. The type, condition, and location of this ACBM were noted. These materials are found in certain areas within the school. A complete list of these can be viewed upon request at the school during normal office hours.

Upon confirmation of the presence of ACBM, an Asbestos Management Plan has been developed. The Asbestos Management Plan includes a description of the measures currently being taken to ensure that the ACBM remaining in our school building is maintained in a condition that will not pose a threat to the health of our students and employees.

Information is provided on the periodical monitoring of the condition of the ACBM remaining in our school building through triennial re-inspections conducted by an accredited asbestos inspector, and through semi-annual surveillance, conducted by trained school maintenance staff.

A copy of the Asbestos Management Plan is available for your review in the North Star School Office during normal school hours. Jeff Hagler is the designated North Star School Asbestos Program Coordinator; please direct any questions to him at 968-4416.

The North Star School District does not discriminate based on race, color, national origin, sex, disability, or age in its programs or activities. The following individuals have been designated to handle inquiries regarding the district's nondiscrimination policies:

Superintendent / Title IX Coordinator
