Athlete Spotlight: Zavier Malcom

Senior Zavier Malcom knows how to prepare for success. "I always pray before a game. I give myself time to sit and think about what I need to do for the game. I envision myself on the field making plays." Thanks for your efforts on the field this year.

Organization Spotlight: National Honors Society

NHS Chapter Wins National Award

NHS is hard at work to live up to their recent national award. Working in separate committees, five of our members are working to self-publish books on Amazon that explain the experiences and accomplishments of our NHS chapter. Another committee is completing historical preservation of national documents for the U. S. National Archives. Our College Admissions & Preparation committee is creating a scholarship application workshop.

Our Education & Training committee is sponsoring a presentation on industry certifications and the importance of obtaining them for accelerating job entry and career advancement. These are only a few of the real-world activities our members are accomplishing in this student-led group. Preparing themselves for success beyond high school is a priority. Please join us in celebrating their award winning work.

Good Reads from Bradley Hill

#1 New York Times Best Seller *Make Your Bed: Little Things That Can Change Your Life and Maybe the World*
by Navy Admiral William McRaven
McRaven, states to start your morning with a "win" by making your bed. Having a sense of responsibility will lead to success all throughout the day. Pursue and set up for success because if you have a bad day, you will come home to a made bed.

Teacher Feature

Teacher Spotlight: Tyler Yearwood

Students report that Mr. Yearwood is an excellent teacher who really gets to know his students. He engages his students through many activities. One of the activities is the "Smarties Lab: Atomic Structure." Mr. Yearwood says this activity "helps his students visualize how compounds are formed and balanced." A lab experiment that is Mr. Yearwood's favorite is the "Balloon Rocket Lab." His students calculate the speed of a moving balloon to learn about it's air speed.

"Not understanding is okay, but in enough time you will."

—Mr. Tyler Yearwood

Copyediting is an important job of HHS media efforts. Mrs. Brown is the ultimate source of information for editing.

Club Spotlight: Peer Helpers

Peer Helpers Help Teens Through Curt's Closet

In October, Peer Helpers sponsored a successful event to collect items for children and teens in need. For the Essential Items Drive, students were urged to bring hygiene items, such as hairbrushes, deodorant, toothbrushes and soap. Items were then given to Curt's Closet, a non-profit organization, for distribution. Students also attended a district-wide workshop to learn how to improve their service efforts.

"Everyone deserves to be treated with dignity. Partnering with Curt's Closet was the perfect opportunity to help all children receive the items they need to feel confident and dignified."

— Mrs. Rachel Cone

For Inspiration

"People often say that this or that person has not yet found himself. But the self is not something one finds, it is something one creates."

--Thomas Szasz, 1920-2012
