Student Spotlight: Mia McGriff

Mia McGriff knows how to study for the ACT. She spends 30-45 minutes every day so she can "be successful and go to a good college." She likes the Mastery Prep and On to college material best. Vocabulary.com and ACT.org also have good practice material.

UPCOMING EVENTS

- **Hanceville Softball Tournament**
  March 6-7, 2026
- **Spring Break**
  March 30 - April 3, 2026

Sports Spotlight

Baseball Highlight: Hunter Black

The HHS Baseball team are already confident in their abilities this season. Hunter Black is a senior baseball player who always strives to be the best. He is a valued team player, and we will miss him and the other seniors when they graduate this year. Hunter believes, "I am very confident about my team's abilities this year. We've all set some goals and mine are to be consistent on the plate. I always have faith in my coaches and in my team this season. We will all push the limits until new ones are made. "

Message from Shaunna Aker

You should never give up, or back down from a challenge. Work hard and set goals, and strive towards them. It takes time to achieve your goals so stay consistent with your efforts. I'm proud of each and every one of you, I'll be glad to see you all walk the stage.

Teacher Feature

Teacher Spotlight: Keith Twitty

Students claim Mr. Keith Twitty is one of the best history teachers at HHS, due to his collaborative learning. A favorite unit of students is the reenactment of the bombing of Pearl Harbor, a pivotal moment in World War II. According to Mr. Twitty, "The students love hands-on learning, they love to role play different moments in history and love to reenact the World Wars using paper airplanes and wadded up paper balls."

"Things turn out best for the people who make the best of the way things turn out."

—Mr. Keith Twitty

The Bulldog Bark: The Library

Join us in the library to play chess and impress your friends with your strategic skill.

Make an appearance in the library to read, study quietly or talk among friends.

Ask about the 3-D printers that are in the library. You can build, print, and create things with easy requirements.

Talk with Mr. Adams. He is a great source of knowledge for projects, papers, and life in general.

FCCLA

Fabrics, Food, and Friends

Mrs. Amy Chambers teaches Family and Consumer Sciences, and she loves her job. She enjoys teaching the arts, specifically painting. She also teaches sewing and cooking in the later semesters. She's been able to travel alongside her students to several major cities. Join one of her classes by signing up on your schedule for next year.

"If your dreams don't scare you, they are not big enough."

— Mrs. Amy Chambers
