September 17, 2026

Dear Families,

I am writing to inform you about an upcoming student well-being survey that will take place at our school. This survey is an important part of our school counseling program, helping us better understand how to support our students' overall growth and well-being.

How the survey will be completed:

- **Grades 5–12:** Students will complete the survey themselves during school.

The survey for grades 5-12 asks age-appropriate questions related to important areas such as:

- Students' physical, social, and emotional well-being
- Resilience and how they bounce back from challenges
- Their sense of values, beliefs, and goals for the future
- Supportive relationships with peers and adults
- Their experiences at school and in the broader community

The information gathered will guide counseling services, school-wide supports, and future programming, helping us better meet our students' needs and support them in a positive direction. The data will be used to gain a general understanding of student needs and trends and to help staff provide appropriate support.

If you have any questions or concerns about the survey or would like to review the questions beforehand, please feel free to contact me. If you **DO NOT** want your child to participate, please let me know by **Friday, September 25, 2026**.

Thank you for your continued partnership and support as we work together to support the well-being of every student.

Warm regards,

NatashaBiesemeier
