

BALD EAGLE AREA SCHOOL DISTRICT

Student Transportation

Transportation services and bus and van route information

Our school buses and vans travel approximately 707,639 miles each school year transporting Bald Eagle Area School District resident students.

Transportation services

We work with five contractors who provide 28 buses and multiple vans. They transport resident students to our elementary schools, our middle and high school, and all nonpublic, cyber, or charter schools they may attend, provided those schools fall within Pennsylvania Department of Education (PDE) mileage guidelines.

Bus schedules and late buses

Because our large district serves multiple schools, some students who live in the farthest areas of the district board a bus or van as early as 6:38 a.m.

The district also provides late buses for BEA students who attend athletic practices and other extracurricular activities after school.

Review transportation information in Sapphire

Students who are assigned transportation can review their bus or van information in Sapphire. The information includes:

- Bus or van number
- Pickup and drop-off location

All students are assigned transportation based on their home address unless a custody agreement or childcare arrangement has been approved.

Review your student's information in the [Sapphire Parent and Student Portal](#).

Additional transportation information

Use the links on the left side of the district's transportation webpage for more detailed information.
