

BALD EAGLE AREA SCHOOL DISTRICT

Bus and School Zone Safety

Student drop-off and pickup

Most Bald Eagle Area School District students travel by school bus or school van. Safe, courteous driving on school property and in nearby neighborhoods helps protect students, staff, and others walking or driving in the area.

During arrival and dismissal, rushing or distracted driving can create unsafe conditions. Parents, caregivers, and staff can help keep school zones safe by following these practices.

1

Watch for children

Stay alert when entering school zones. Children can be unpredictable and may dart in front of your vehicle unexpectedly.

2

Slow down and obey traffic signs

Follow all traffic laws, posted speed limits, and other traffic signs or signals.

3

Keep your eyes on the road

Avoid distractions from cell phones, GPS screens, radios, and other devices or activities inside the vehicle.

4

Follow school drop-off and pickup procedures

Comply with your school's procedures for the safety of all children.

5

Stay alert along bus routes

Obey bus signals, and do not pass buses when their signals are flashing.

By practicing safe driving, we can make Bald Eagle Area School District a safer place for our students and staff.
