

WMRSD Leaders and Learners – Your Community Connection White Mountains Regional School District

Issue 8 - October 28 , 2026

White Mountains Regional Middle High School

It has been an exciting fall at White Mountains Regional Middle School! Students continue to embrace new opportunities, build relationships, and develop important skills both inside and outside the classroom.

Recently, WYLD students participated in an exciting rappelling adventure in Franconia Notch, where they safely rappelled from the Hugh J. Gallen Memorial Bridge. Experiences like this challenge students to step outside their comfort zones, build confidence, and develop trust in themselves and their peers. These outdoor learning opportunities play an important role in helping students grow through hands-on experiences and meaningful challenges.

During their time in nature, students have been practicing the teamwork and communication skills they will need to succeed on the water. These activities provide valuable opportunities to collaborate, solve problems, and learn the importance of supporting one another.

The school team is hard at work planning winter programming that will offer students even more opportunities to explore their interests and try something new. As plans for the ski program are finalized, the school will soon reach out to families and community members who may be interested in volunteering as chaperones. Anyone interested in helping with the ski program should ensure that the required background check has been completed through the school district. The school appreciates the support of families and community members in making these experiences possible for students!

Spartan Block: Something for Everyone

Spartan Block continues to provide students with opportunities to connect with their interests, explore new activities, and build relationships with classmates and staff. Teachers have developed a variety of clubs and activities that give students a place to belong and something to look forward to each week.

Current offerings include Dungeons & Dragons, Video Game Club, Girls' Volleyball Club, Outdoor Adventures, Sports Cards Club, Chess Club, MathCounts, Chorus, and Homework Club. Whether students enjoy strategy games, athletics, outdoor exploration, music, or academic challenges, there is something for everyone. These activities provide valuable opportunities to build friendships, develop new skills, and strengthen the school community.

From strategy and problem-solving to athletics and outdoor exploration, these clubs reflect the school's commitment to providing engaging experiences that help students discover new passions, develop skills, and build meaningful connections.

Upcoming Events

There are several important dates to mark on the calendar! Red Ribbon Week will take place October 23–30, providing an opportunity to promote healthy choices, positive decision-making, and a commitment to living a safe and healthy life.

Students can also look forward to the Middle School Halloween Dance on Friday, October 30, from 6:00 to 8:00 p.m. The dance will offer an evening of fun, music, and time with friends. Admission is \$5.

Families should also mark their calendars for the Middle School Open House on Wednesday, November 18, 2026. The school looks forward to welcoming families into the building to connect with teachers, learn more about classroom experiences, and celebrate the learning taking place at White Mountains Regional Middle School. The start time will be announced soon.

As the school year progresses, White Mountains Regional Middle School looks forward to continuing to build an experience filled with adventure, connection, and meaningful opportunities for every student. Whether students are rappelling from a bridge, preparing for a canoe trip, joining a new club, or participating in an upcoming school event, the goal remains the same: to help every student feel connected, engaged, and supported at White Mountains Regional Middle School.
