Tyler County Schools

STRATEGIC PLAN
2026-2027

→

Mission Statement:

The mission of Tyler County Schools is to provide student-centered learning opportunities that ensure all students will learn to their potential and master the skills, ethical behaviors, and attitudes needed to be successful citizens in a 21st Century economy.

CORE BELIEFS:

We believe that students come first.

Students learn to become analytical and independent thinkers in different ways and at different rates; therefore, learniung for all is our instructional focus.

We believe that students must be prepared.

Through an instructional focus based upon curricular standards, students will be equipped with the skills and knowledge necessary to contribute to and succeed in a democratic 21st Century global community.

We believe that students and staff must be healthy and ethical.

All students and school personnel shall develop and promote responsiblity, citizenship, mutual respect, strong character, environmental awareness, and healthy living.

We believe in the importance of school and community interaction.

Communication and a shared involvement between school, home, and community is essential to success.

GOALS

Parent/Community Engagement

By maintaining meaningful parent and community relationships through parent teacher conferences, social media, radio and other means of communication, the extent and quality of involvement will continue to increase.

Academic Achievement

Tyler County Schools will increase ELA and Math proficiency by 2.5% for all students in the following subgroups: All, Low SES, and SWD as measured by the 2027 West Virginia General Summative Assessment and SAT School Day assessment.

Professional Learning

At least 95% of our teachers will attend professional development sessions that give the opportunity to increase their ability to implement a variety of research-based instructional strategies to improve student achievement.

GOALS

Homelessness

During the 2026-2027 school year, Tyler County Schools will increase communication efforts to identify 100% of the children experiencing homelessness to increase enrollment, participation, and the opportunity to succeed in school. The elementary and secondary social workers and homeless liaison are working closely to reach out to families to determine needs of each identified homeless student.

Career and Technical Education

During the 2026-2027 school year, Tyler County Schools will strengthen student progression through approved CTE Programs of Study by increasing the percentage of students who become concentrators and completers.

Measures of Success: increase the percentage of CTE concentrators from 25% to 30%; increase the percentage of CTE completers from 6% to 10%; conduct annual pathway reviews with 100% of CTE students to ensure proper course sequencing and program completion.

Pre-K CQI Plan

Through collaboration with staff and families of Pre-k students, a Continuous Quality Improvement (CQI) Plan will be created to address the needs of the Pre-k program.
