Bartow County College & Career Academy

Providing Students a Competitive Advantage

Students interested in exploring career fields, earning college credits, developing job and application skills, and gaining industry-specific experience all before graduating high school should consider attending the BCCCA. The BCCCA serves as a pipeline to both post-secondary and career opportunities.

Earn Credentials of Value

High School Pathways

all HS pathways are single blocked

Audio-Visual Technology and Film

This pathway prepares students for employment or entry into a postsecondary education program in the audio and video technology career field.

Cosmetology

Students learn about most services performed in a salon from hair to nails. The pathway helps students earn hours toward the 1500 required to sit for the state board exam.

Engineering

This pathway is for students who like to fix things or create new designs. Students will study electronics, mechanics, fluid power, electrical control systems, and many other topics.

Healthcare

Health Sciences is for those who have a strong desire to help others and a genuine concern for the welfare of patients and clients. See available certifications and courses below.

Public Safety

This pathway provides students with career-focused educational opportunities in various first responder fields. The focus is on learning how to protect citizens from harm.

Teaching as a Profession

This pathway explores careers in education, offering hands-on experience, curriculum design, and instructional strategies for future teachers, often culminating in a practicum and End of Pathway certification.
