Health Science Career Cluster

The Health Science career cluster focuses on planning, managing, and providing therapeutic services, diagnostics services, health informatics, support services, and biotechnology research and development. This career cluster includes occupations ranging from medical assistant, registered nurse, and physical therapist to forensic science technician and athletic trainer.

Diagnostic & Therapeutic Services Program of Study

The Healthcare Diagnostics & Therapeutic Services program of study introduces students to occupations and education opportunities related to diagnosing and treating acute, episodic, or chronic illness independently or part of a healthcare team. In addition, students will be introduced to the opportunities associated with providing treatment and counsel to patients as well as rehabilitative programs that help build or restore daily living skills to persons with disabilities or developmental delays.
