

Tuesday, March 10, 2026

The safety of our students and staff is always our top priority. On Tuesday, March 10, 2026 the Massillon City School District became aware of a potential threat on one of our Massillon City School District buses. It was reported that a current student at Massillon Intermediate School made a bomb threat regarding his bus. As a precaution, students were immediately evacuated from the bus and transferred to another bus or picked up by their parents.

The situation was investigated in coordination with The Massillon Police Department and the threat was determined NOT credible. School discipline will be utilized to the fullest extent. We appreciate the quick response of The Massillon Police Department and our staff in ensuring the safety of our students.
