Program Hours: 7:30am - 3:30pm

Class Sessions: AM: 8:00-10:30 am PM: 11:00-1:30 pm

Discovery Academy is a full-year program that prioritizes an alternative education setting for senior students. Second semester juniors may also qualify for the limited number of seats in this program.

The project-based program offers students the ability to create a personalized plan to prove their career and college readiness. Students master high school graduation competencies based upon district, state and national standards.

Discovery Academy is not an alternative to school, but offers students an alternative setting to demonstrate high school competencies to earn their diploma.

Upon successful completion of *the Discovery Academy curriculum* and related WHS and state requirements, students will earn a ***traditional WHS diploma.***
