School Immunization Requirements: **Kindergarten-6th Grades**

Vaccines are one of the most effective tools to keep kids healthy and in school. Some vaccines are required for Wisconsin students.*

How do I complete the Student Immunization Record?

- Call your doctor of local health department and make a **vaccine visit** as early as possible.
- Ask your doctor to fill out the Student Immunization Record form (F-04020L) and then you **sign** it.
- **Give** the Student Immunization Record form to the school at the beginning of the new school year.
- **Call** your doctor's office or local health department if you **need help** or more information.

You can track and print your student's vaccine record through the Wisconsin Immunization Registry.

What vaccines and how many doses does my student need for school?

▶ Your doctor may recommend additional vaccines to keep your student healthy.

4	**Polio**	4	**DTaP/DTP/DT/TD**	3	**Hepatitis B**
2	**Varicella****	2	**Measles, mumps, rubella**		

What resources are available to help me pay for vaccines?

The **Vaccines for Children (VFC) Program** provides free vaccines for children ages 18 years and younger who are not insured, Medicaid (or BadgerCare) eligible, American Indian, or Alaska Native. Visit the VFC webpage to learn more.

*Vaccine requirements may be waived for health, religious, or personal conviction reasons. Find a waiver here.

**Varicella vaccine is not required if the student has had chicken pox diagnosis by a qualified health care provider (MD, DO, NP, or PA). If a student has an existing parental report of varicella disease on file, that is acceptable. Any new entrants will require documentation from a qualified health care provider.
