Re: **Anticipated Surveys and Census**

Over the next few weeks, the Eddyville-Blakesburg-Fremont Board of Directors will be conducting an important data collection process. The information we gather will guide decisions and ensure that we are planning responsibly for both student achievement and the financial health of our school district.

The EBF elementary attendance centers are experiencing declining enrollment. The Board is reviewing how to best allow families the opportunity to request the elementary attendance center their children may attend. To help inform this process, surveys will be emailed to all families with elementary-aged children.

- **Resident families** will receive a survey designed specifically for their circumstances.
- **Open-enrolled families** will receive a survey tailored for their circumstances.

In addition to these surveys, the Board will be conducting a census of all children ages 2–4 who live within the EBF district.

Student enrollment within the EBF School District continues to shift. To better prepare for the future, the EBF Board of Directors will be collecting data that directly relates to enrollment trends. This information will help us build the most accurate picture possible of projected enrollment over the next several years.

The combined information from the elementary family surveys and the census data will serve as key variables in the decisions the Board of Directors must make to maintain strong educational opportunities for our students while operating the district in a financially responsible manner.

We ask for your partnership in this process. Please take the time to complete the survey when it arrives and respond to census efforts if you have younger children in the district. Your input is vital to helping the Board chart a course that ensures the success of our students and the financial stability of our schools.

Thank you for your continued support of EBF. Together, we can make decisions that will best serve our students and community.

Sincerely,

Scott Williamson
