2026–2027 School Year Construction Update & Campus Access Information

As we begin the **2026–2027 school year** and transition from **Phase I** to **Phase II** of our construction projects, we would like to share important information regarding campus access and daily procedures.

Phase II includes construction of the parent drop-off and pick-up areas, playground, parking lot, gymnasium, and other site improvements. The project is tentatively scheduled for completion **next summer**.

During this phase, our **top priority** is completing the parking lot and parent drop-off/pick-up zones. We are hopeful this portion of the project will be finished by **late September or early October**. Until then, please follow the procedures outlined below.

Temporary Campus Access Procedures

1. Parent Drop-Off and Pick-Up

- Parent drop-off and pick-up will take place **in front of the Administration Building**.
- Enter campus from **Airport Road** and proceed through the circle drive (formerly **D Street**).
- Please pull all the way forward to allow multiple vehicles to unload at the same time.
- **Do not park or leave your vehicle unattended** in the drop-off lane, as this blocks traffic and delays other families.
- After dropping off your student, continue around the circle drive and exit onto Airport Road. When exiting, **please turn right onto Airport Road** and continue toward **E Street**.

2. Visitor Parking

- Parking will be **very limited** during the first couple of months of school.
- If you need to enter the building, please wait until **8:00 a.m.**, when morning drop-off has concluded.
- Between **8:00 a.m. and 3:30 p.m.**, visitors may park in the circle drive, provided there is enough room for other vehicles to pass safely.
- A limited number of parking spaces in front of the Administration Building will be available between **3:30 p.m. and 4:15 p.m.**
- At all other times during afternoon dismissal, please park along **Airport Road** to avoid blocking the parent pick-up line.

3. Bus Transportation- Due to the distance between bus drop off / pick up and parent drop off / pick up, any bus changes need to be made no later that 3:30 pm each day.

- Bus drop-off and pick-up will take place **behind the new school along 10th Street**.
- For the safety of all students, **parent drop-off and pick-up will not be permitted in this area.**

4. Students Walking from Airport Road

- Students walking from the Airport Road area should use the **crosswalk near the C-Tech Building**.
- They will then walk up the slope through the gate to the track, follow the track to the stairs leading to the new building, and enter through the **back entrance**.

5. Students Walking from 10th Street

- Students walking from 10th Street should cross at the corner near the **Methodist Church** and enter through the gray gates.
- They will then follow the sidewalk alongside the high school hallway to the entrance of the new building.

6. Grades K–5

- Students in **Kindergarten through 5th grade** will report directly to their classrooms upon arrival.

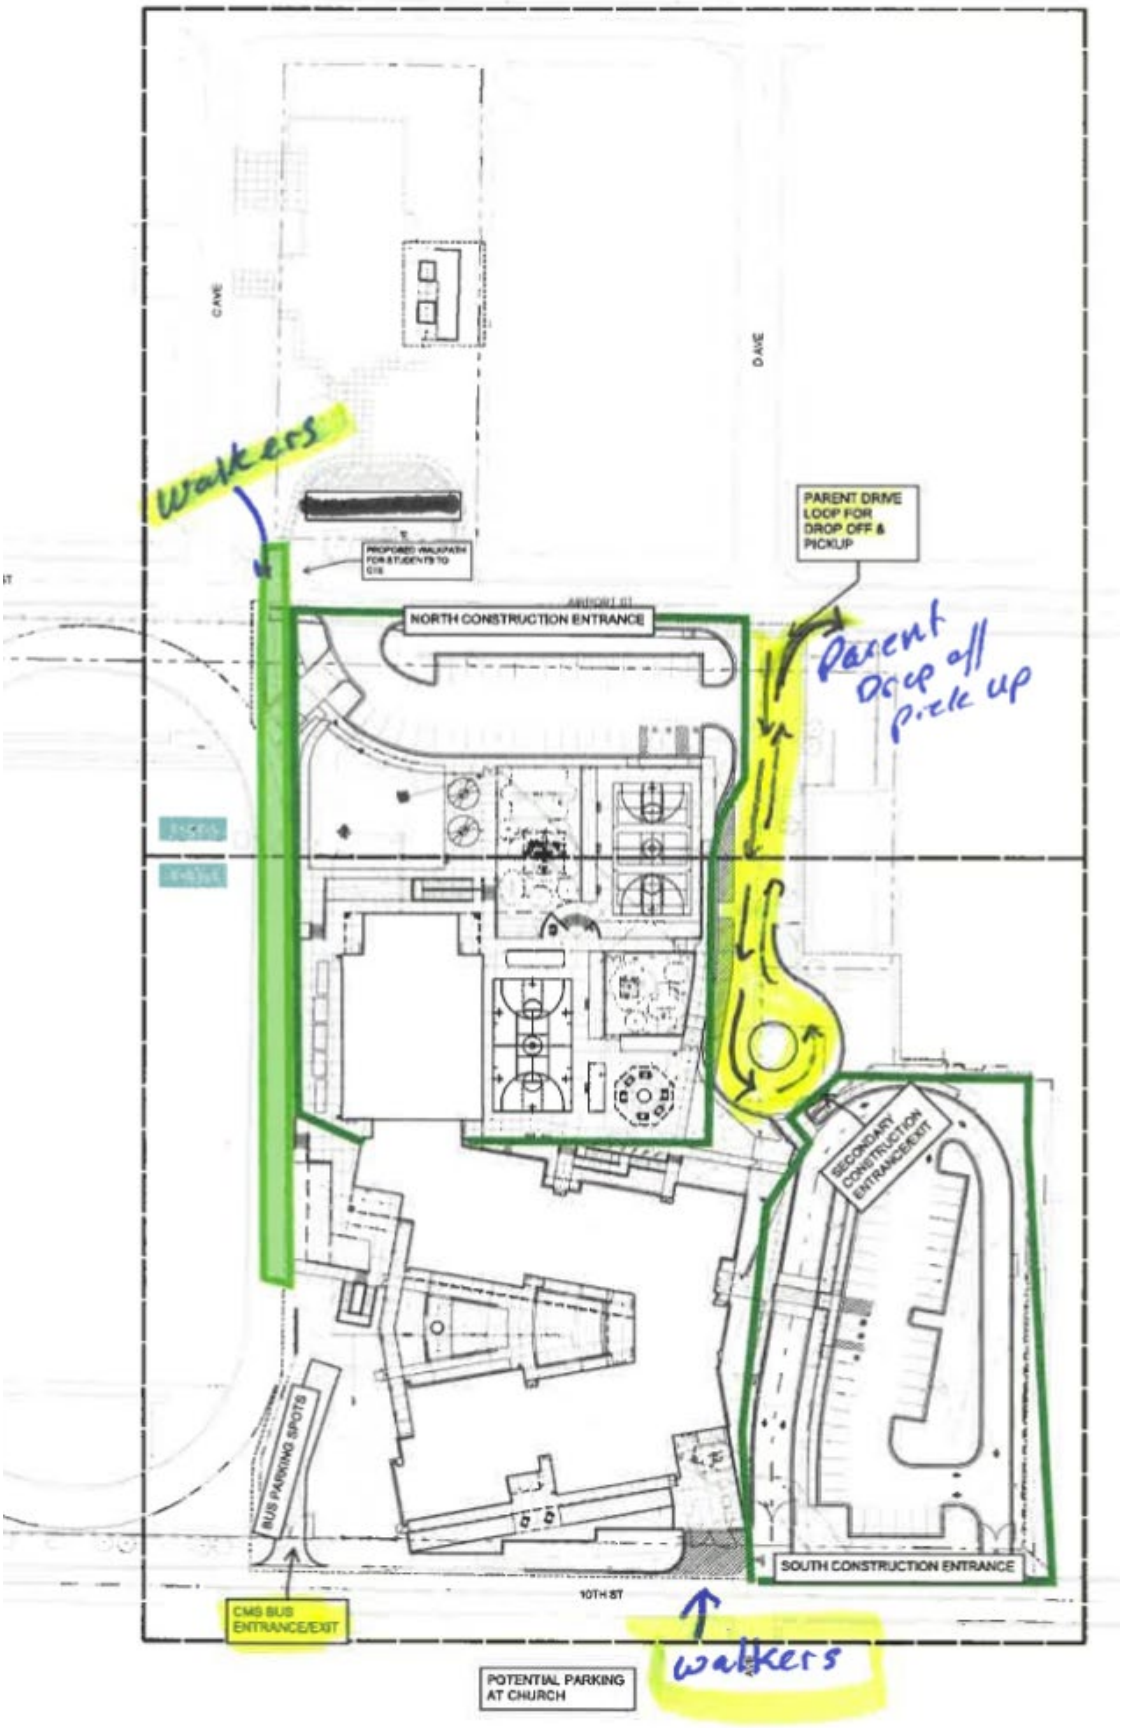

7. Grades 6–12

- Students in **grades 6–12** will report to the cafeteria until the start of the school day.

8. Student Arrival Time

- Students **should not be dropped off before 7:45 a.m.**, as staff supervision is not available prior to that time.

Thank you for your patience, flexibility, and support as we continue improving our campus. We understand these temporary procedures may require some adjustment, but they are necessary to ensure the safety of our students, families, and staff during construction. We look forward to completing these improvements and appreciate your partnership throughout this process.
