Exciting Updates to Your School Nutrition Program

Dear Parents and Guardians,

We are excited to share that beginning in September, your student's school nutrition program will be proudly managed by Southwest Foodservice Excellence, also known as SFE.

SFE is dedicated exclusively to K-12 food service and partners with schools to provide fresh, nutritious meals that students can enjoy. Our culinary-first approach, commitment to quality, and focus on creating a positive dining experience are all centered around supporting students and helping them feel ready to learn each day.

Beginning in September, students will have access to daily breakfast and lunch service. Menus will be designed to provide balanced, nutritious meals while offering a variety of choices throughout the school year.

Meal applications are already available. We encourage all families to complete an application once it becomes available, as your student may qualify for free or reduced-price meals.

As we prepare for the launch of the new program, please continue to check your school's website for important updates, meal application information, menus, and additional details.

We are truly excited to become part of your school community. Our goal is to create a warm and welcoming dining experience where students can enjoy nutritious meals, explore new foods, and feel supported throughout their school day.

Thank you for welcoming SFE into your school community. We look forward to serving your students and beginning a successful school year together!

- Your SFE Team
