Winter 2025-26
K-4 IXL Math

March 11, 2026
Presented by Marian Dyer, Assistant Superintendent

IXL Mathematics Grades K - 4

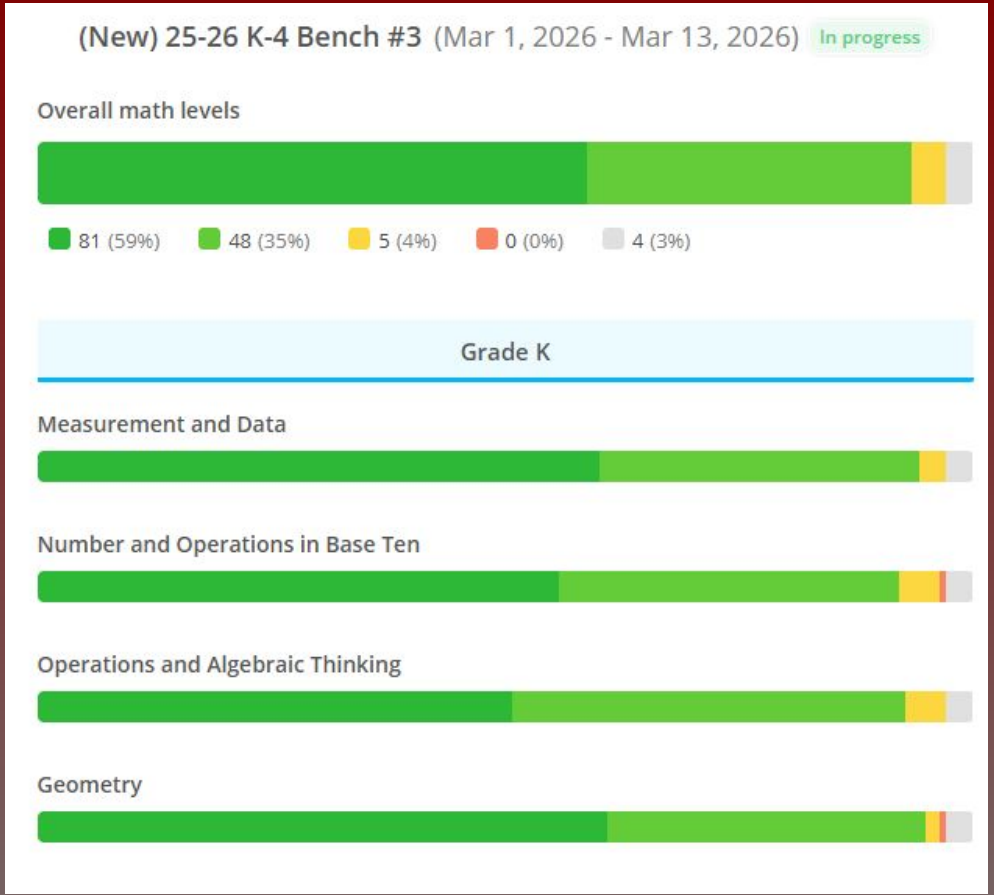

Math IXL scores help identify students in need of intervention and support in math.

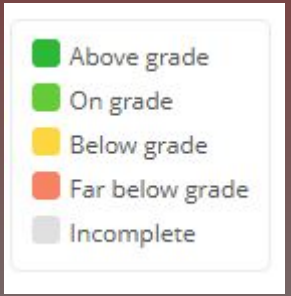

Classroom supports, including identifying skills for IXL practice at school and at home

Pull-out intervention

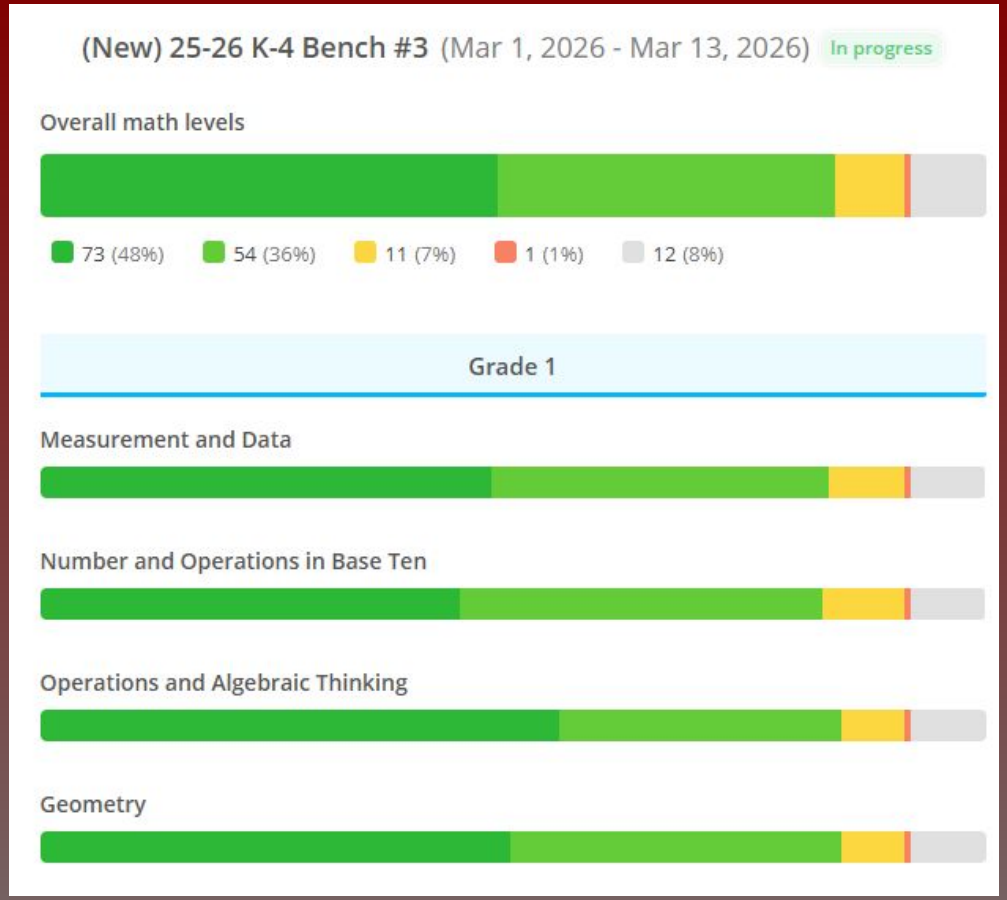

Elementary Math Coordinator - shares data, supports using data to inform instruction and curriculum decisions

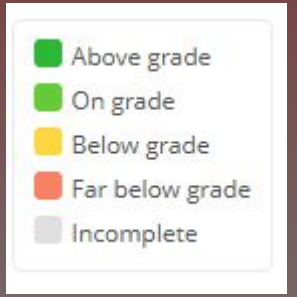

K-4 = March 1 - 13, 2026 *Secure Testing glitch*

Winter 2026 - Math - Grade 1

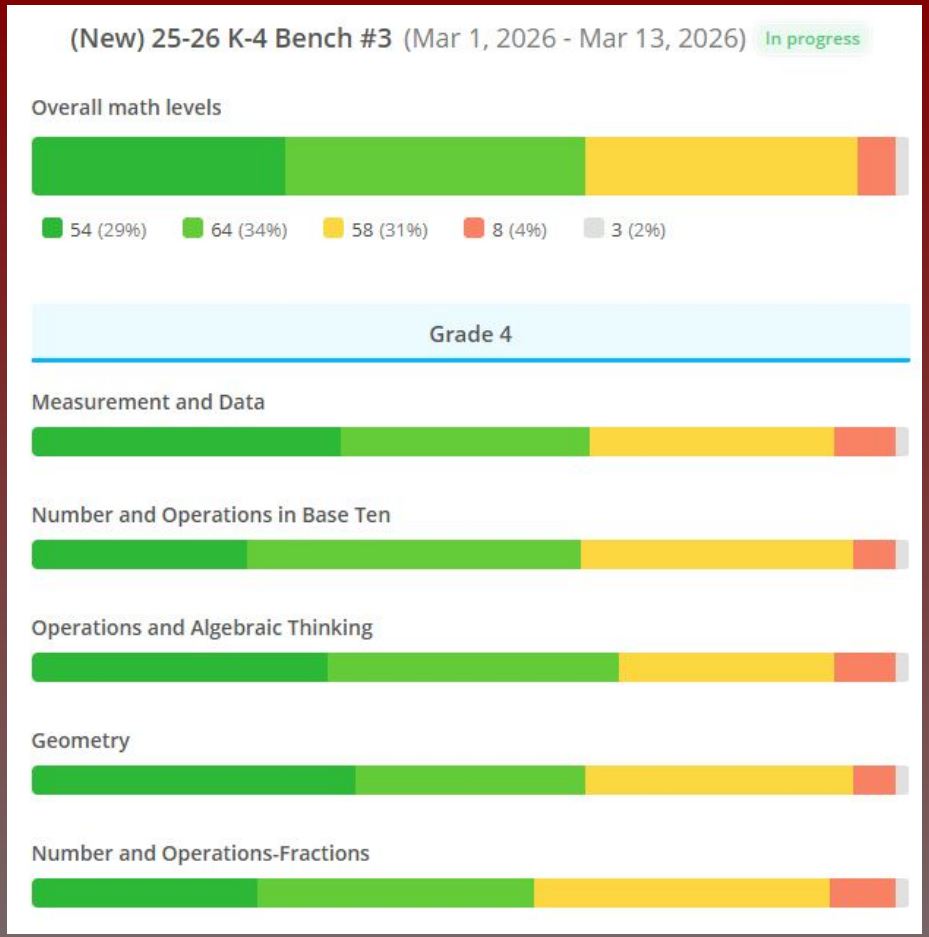

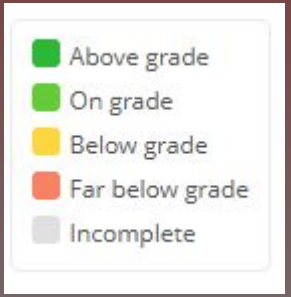

Winter 2026 - Math - Grade 2

Winter 2026 - Math - Grade 3

Winter 2026 - Math - Grade 4

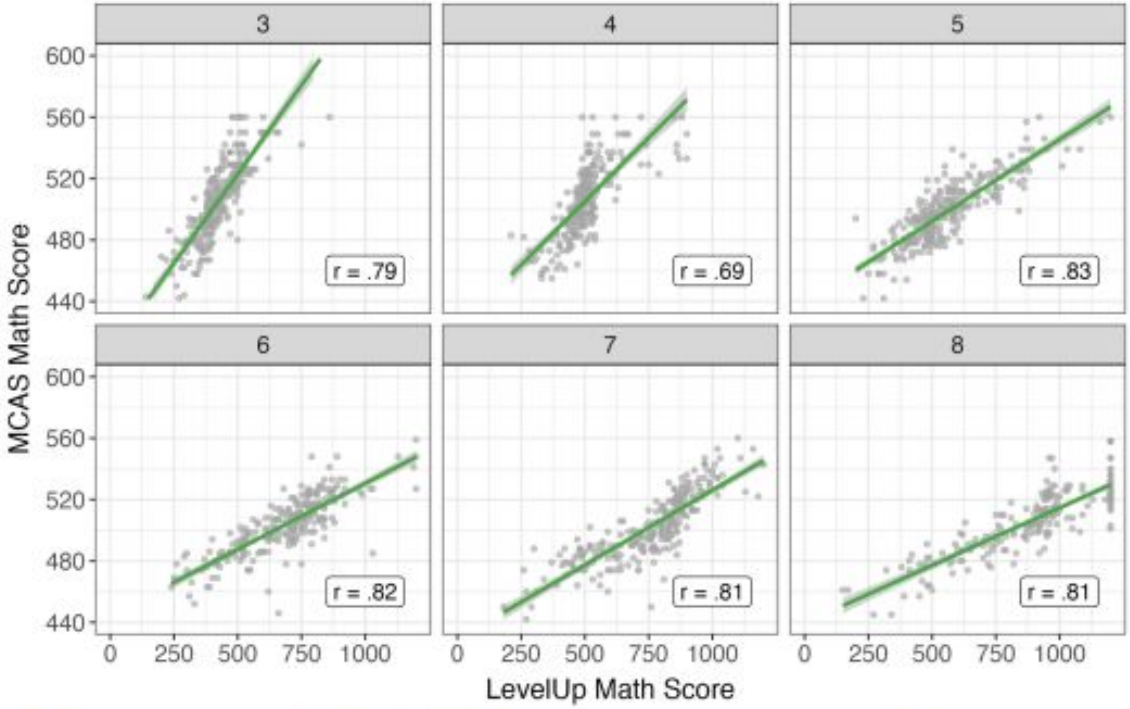

Figure 1. Correlation between IXL LevelUp Diagnostic math scores and MCAS math scores by grade

IXL Predictive Validity Study 2025 (Math MCAS)

Assessment is still in progress but most students have finished.

Overall, 76% of students are at or above grade level on IXL math assessment for the March benchmark so far.

Looking at how we use IXL assessment and skill practice to support building student mathematical reasoning over time.

Students who score high in the grade level - encouraged to enrich grade-level content rather than work up a grade level

Overview
