He also responded to a comment suggesting the strength and conditioning season lasts only 16 days, stating that this is inaccurate and that the program involves approximately 72 working days. Additionally, he addressed the suggestion that varsity coaches should be compensated the same as middle school coaches, noting that varsity programs typically involve more students and require a greater time commitment.

Mr. Hodges made a motion to approve GCBDA policy changes. Mrs. Sullenberger seconded the motion and it passed unanimously.

F. Fair Land Trade Proposal
Mrs. Sullenberger provided an update on the ongoing discussions regarding the proposed land trade with the Fair Association. She reported that the Fair Association has made a verbal and email proposal to exchange 2.77 acres. Mrs. Sullenberger also reviewed the history of past land purchases and sales and read portions of the land deed outlining certain provisions that she stated have not been followed, which raised concerns for her. She explained that the current property line provides only a minimal buffer between the school building footprint and the boundary. Moving the line closer to the rear of the building could limit future expansion opportunities and impact the commercial side of the building where tractor trailers access the facility for deliveries. She noted that this could make future building expansion difficult or impossible. Based on these concerns, Mrs. Sullenberger stated that she does not believe the proposed land trade is in the best interest of the Highland County School Board. However, she emphasized that she has no objection to the Fair Association continuing to use school property and expressed the importance of maintaining a positive relationship and sharing facilities in the best interest of the children.

DRAFT

Mr. Hodges made a motion to continue the mutual understanding with the Fair Association as in the past and continue to work together without any land trade. Mrs. Sullenberger second the motion and it passed unanimously.

The presentation reviewed projected revenue sources, including state, federal, and local funding, and noted that the county's operational contribution remains level-funded while requesting $340,000 in additional capital funding for a school bus replacement and the first phase of a mini-split A/C system. Major expenditure increases include a 3% salary and benefits adjustment, technology and security upgrades, transportation and operations costs, and capital improvements.

AGENDA ITEM # 3 BUDGET

A. 2026-2027 Proposed Budget

Dr. Nycum and Mrs. Colvin presented the revised FY2027 proposed budget, noting that it is based on the Governor's proposed budget and recent Senate amendments. Final figures may change pending approval of the state budget. The total proposed budget is $6,646,400, representing an increase of $704,192 (11.9%) over FY2026.

Revenue Highlights:

- State revenue: $2,592,944 (39.0%)
- Local county contribution: $3,669,800 (55.2%)
- Federal revenue: $303,656 (4.6%)
- Other local revenue: $80,000 (1.2%)

The county contribution remains level funded for operations at $3,329,800, with an additional $340,000 requested for capital improvements, including a school bus replacement and the first phase of a mini-split HVAC system.

Expenditure Highlights:

- Instruction remains the largest category at $4,144,405 (62.2%)
- Operations and maintenance: $694,654 (10.5%)
- Technology: $561,688 (8.5%)
- Transportation: $556,235 (8.5%)

Major cost drivers include a 3% salary increase, rising operational costs (including technology contracts and instructional materials), and capital investments in transportation and facilities. The presentation also included adjustments to expenditures due to potential staffing changes, resulting in a net neutral budget impact.

DRAFT

Mrs. Sullenberger inquired about the availability of funds resulting from the reduction of the Agricultural Mechanics position. She also proposed the possibility of prioritizing the refinishing of the elementary gymnasium floor in place of the planned mini-split HVAC project. Additionally, she requested clarification regarding the athletics budget and cafeteria funding.
Mr. Wilfong asked for information regarding the Caldwell Fund. He also requested that Dr. Nycum develop a contingency ("Plan B") for the utilization of SOQ funds in the event that vacant positions remain unfilled.

AGENDA ITEM # 4 PUBLIC COMMENT

Floyd Maxey criticized the proposed 2027 school budget as excessive, citing Highland County's already high per-pupil spending and extremely low student-to-teacher ratios as evidence of overfunding. They argued the requested 11.85% increase is unreasonable compared to inflation and urged limiting the increase to 3%, emphasizing the need for stricter budgeting and reduced reliance on taxpayer funding.

AGENDA ITEM # 5 BOARD COMMENT

An opportunity for members of the board to make individual comments, share updates, or express viewpoints related to board matters. Comments are limited to board members only.

Mr. Wilfong inquired about strategies to position Highland County Public Schools as an attractive choice for families. Mrs. Sullenberger noted that, unlike larger divisions, HCPS offers all students the opportunity to participate in athletics. Mr. Hodges expressed a desire to see continued improvement in academic achievement. Mr. Wilfong also emphasized the importance of strengthening the division's marketing efforts.
