SFHS Construction Competition

SFHS students recently participated in a Construction Management Competition, designing a new cultural destination for the community.

Working in teams, students developed full project proposals focused on design, sustainability, and feasibility, while meeting regularly with industry mentors from Morganti Construction, UES, and WGI Civil Engineering. Special thanks to Marc Turull, SFHS ACE sponsor, for supporting the program.

The event concluded with final presentations to judges and community leaders, including Superintendent Michael Maine and School Board Member Christia Roberts.

Max Planck Neuroscience Competition

On April 11, 2026, Finely Murray (sophomore), Aria Kaul (junior), and Grace Wang (junior) proudly represented our school at the 2026 Max Brain Challenge, hosted by the Max Planck Florida Institute for Neuroscience.

Competing as "Synapse, Crackle, & POP," the team stood out among participants and earned the award for Best Team Name—a fun and creative achievement to celebrate! 🎉

Hands-On Woodshop Experience Inspires Students

Students recently explored the art of woodturning with Mr. Geoff Otton of Otton Woodworking, creating their own pepper grinders from raw wood. 🪵 Under expert guidance, they built skills and confidence on the lathe while collaborating and taking pride in their work.

The shop was full of energy and excitement, making the experience both educational and fun—leaving students inspired to continue exploring woodworking trades. 🌟
