NOTES FROM SUPER

Huge shout out to our staff and students at Bellevue Jr/Sr High School for the amazing 9/11 step challenge.

I was able to be there and participate. Staff was energetic and enthusiastic. Students were working hard completing the challenge, being respectful of the stadium by throwing away their garbage and were taught valuable lessons about what happened on September 11, 2001. There is power in learning about history through movement and experiences. Great job to everyone!

MTSS TIERED TIDBITS

Some highlights from the MTSS/MICIP team:

- According the Early Warning data, the overall annual data has made significant gains in attendance, behavior, and academic (especially MS math and ELA).
- We are focusing on Tier I primarily by getting instructional coaching and support, PLCs monthly, New Teacher Academy, and increasing student accountability by seeing their own progress and setting goals.
