Wyman's wild blueberries are prepared from properly sun-ripened, washed, cleaned and de-stemmed fruit that is laser-sorted to assure top consistent quality. Product is in complete compliance with the Federal Food and Cosmetic Act of 1938 as amended.

Wyman's wild blueberries are a natural wild crop that is managed using advanced Integrated Crop Management (ICM) techniques in order to minimize use of any herbicides, fungicides, or pesticides. Any such products used by Wyman's have been fully approved by the Food and Drug Administration (FDA) for use on low-bush (wild) blueberries and are applied strictly according to label instructions by trained and licensed applicators.

Wyman's processing facilities are regularly audited by reputable third-party auditing firms and all processing is done in an allergen-free environment under a strict HACCP food safety program. Wyman products are GMO-free.
