Choosing Kindness at SES!

At left, Slaughter Elementary School students hold their kindness pledges, committing to treating others with respect and helping create a bully-free school community. At right, students proudly display their "Be Kind" banner as they celebrate the importance of kindness and inclusion.

Ready, Set, Glow at SES!

Students at **Jackson Elementary School** had a blast at their PBIS Glow Party! Students punched their ticket to this exciting event through their excellent behavior and commitment to the school's values!

Last week, the team at **East Feliciana Middle School** was surprised with recognition as this year's National Star Academy Program of the Year. EFMS was selected for this recognition from nearly 100 Star Academy sites across the country, a testament to the school's commitment to the strong implementation of Star's collaborative, problem-based learning model. As we commit ourselves to Excellence Every Day as One Community with One Vision, we celebrate EFMS not only for this well-deserved national recognition, but more importantly for their shared commitment to the strong daily practices that make excellence possible!

Thank You Custodians!

Building Science Communication Skills at EF STEAM

Students at **East Feliciana STEAM Academy** are designing posters that explain why it is important to mitigate soil loss and protect healthy soil. Through their posters, students are connecting soil erosion to food production and future food scarcity. They are identifying ways people can reduce soil loss, protect farm land, and conserve this important natural resource so that future generations will have enough food to meet their needs.

Fall into Learning at EFHS!

Mr. George's Early College Academy English I students at **East Feliciana High School** took advantage of the beautiful fall weather as they worked collaboratively to read, annotate, and identify figurative language in their text.

All Hands On Deck at JES!

At Jackson Elementary School, the entire staff is focused on students' growth! Our classroom teachers and paraprofessionals, master teacher, and district instructional coaches collaborate to teach targeted small groups during our daily literacy and math intervention time. This team approach allows us to personalize learning, meet individual student needs, and build strong foundational skills in all of our students!
