2026-27
District Calendar

Introducing our
EFHS Tigers
football team! We
are proud of our
Tigers for
competing hard in
their regular season
opener at Lake
Charles College
Prep. Follow along
with their season at
[efschools.net/
athletics!](https://efschools.net/athletics/)

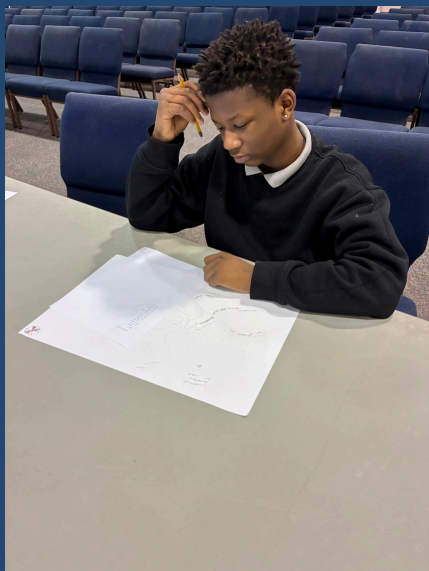

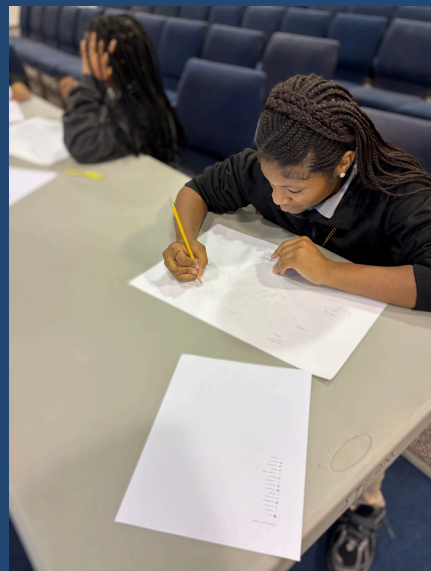

East Feliciana High School Tigers
2026 Football Team

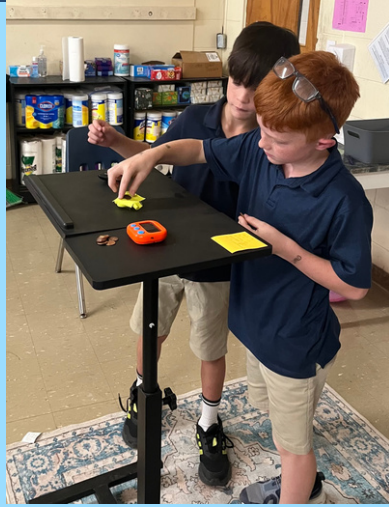

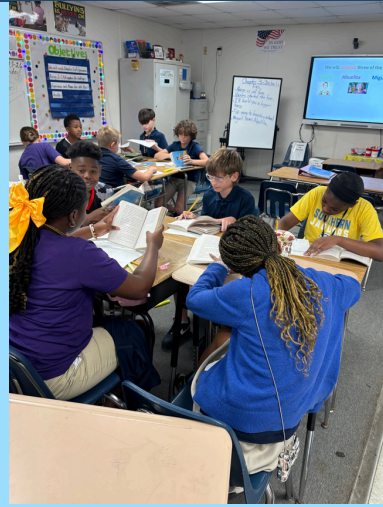

Jackson Elementary School

Budding scientists in Ms. Edwards and Ms. Armstead's K-4 resource class at JES explored science standards through a hands-on experiment. Students used data in tables and graphical displays to describe typical weather conditions expected during a particular season.

East Feliciana STEAM Academy

Dr. Elsey's talented art students at EF STEAM have begun their first project of the year, "All About Me." Through self-reflection and visual display, students must answer the question, "If someone wanted to know who I am without me saying a word, what would I need to show them?"

Slaughter Elementary School

- 1: Pre-K students in Mrs. McCurley's class explored the human body this week and practiced collecting and organizing data by charting eye color!
- 2: 3rd grade students in Mrs. Arnett's class worked collaboratively to build bridges as part of a hands-on science lesson demonstrating the effects of force.
- 3: Principal Thornton and 5th grade students proudly led the school in reciting the Pledge of Allegiance and the school motto.
- 4: 6th grade students in Mrs. Green's class analyzed characters and their development while reading the novel 'Esperanza Rising.'

East Feliciana Middle School

Students in Mr. London's social studies class at EFMS are exploring the geography, transportation, economy, and society of different communities and how these influenced the experience of individuals and groups living in these communities in the 19th century.

Spotlight on Community Partnerships

Herman Alvie and Kiffe Phillips of G-Men Nation Inc. presented the East Feliciana High School football program with a donation in support of the team's upcoming season. We are grateful for community partners who continue to invest in the success of our students!

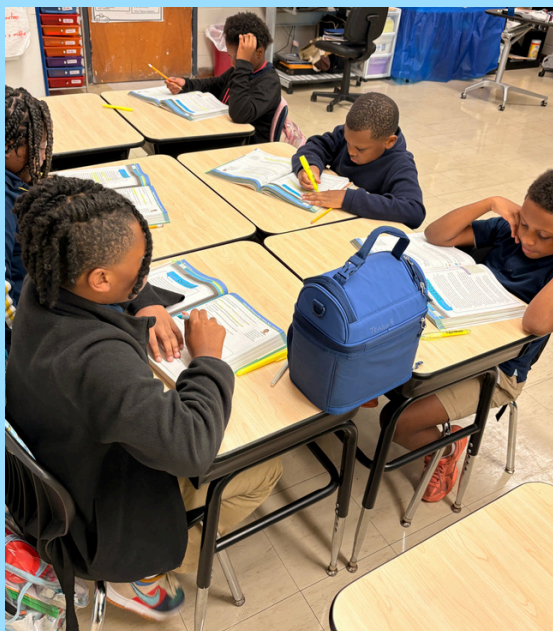

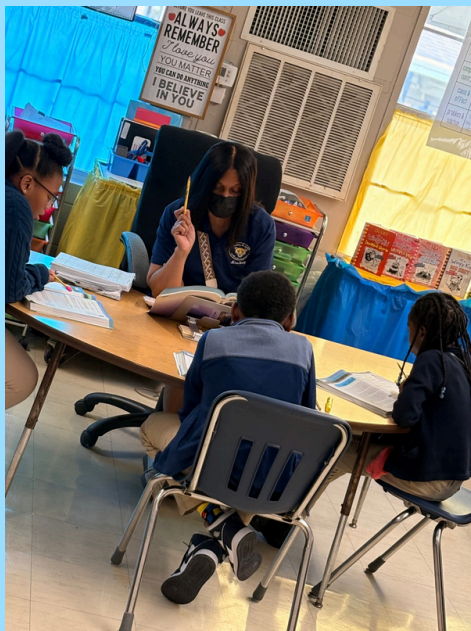

Seconds Count at EFEA: Secure, Silent, Sheltered

When severe weather strikes, the **East Feliciana Enrichment Academy** activates their structured Shelter-in-Place (SIP) safety routine. A successful SIP response relies on calmness, silence, and gaining rapid control of the physical building environment. Here, EFEA crisis management leader and teacher Jherica Kelly and students demonstrate the “duck and cover” position.

Aquaponics @ EF STEAM

The East Feliciana STEAM Academy aquaponics tank is up and running for the 2026-27 school year. Students are hands on from the start, learning how to set up the system, understanding how the system works, and learning how to care for the fish inside. Later in the school year, students will use their knowledge to grow lettuce in the system. Thank you to our community partners at Arkansas Pond Stockers for your generous donation of fish for the system!

Clinton Elementary School

Mrs. Corey’s 4th grade English language arts students at CES are diving into the article “Thinking Out Loud” as they strengthen their reading comprehension and critical-thinking skills. Students are actively engaging with the text, sharing their ideas, and using evidence from the article to support their thinking. Individual small group learning is a key part of our instructional model in East Feliciana Public Schools.
