Grand Valley & MagicSchool Partner to Empower Educators with Responsible Artificial Intelligence (AI)

New partnership brings trusted AI tools to classrooms—saving time for teachers, boosting student learning, and supporting safe, standards-aligned instruction.

Grand Valley is partnering with MagicSchool, the most widely used and trusted AI platform in K–12 education, to bring powerful, educator-ready tools to classrooms in Grand Valley and Ohio. This collaboration will help teachers personalize learning, improve student outcomes, and build students' AI literacy while ensuring strict privacy protections and alignment with school standards.

This partnership is about putting the best AI tools in educators' hands to support every student's success. MagicSchool helps us do that in a way that's safe, equitable, and aligned to what families care about most.

Why This Matters for Students, Teachers, and Families

Supports Stronger Learning Outcomes
Frees up teacher time for direct student support, leading to more personalized instruction, timely feedback, and stronger academic results.

Builds AI Literacy & Career Readiness
Gives students hands-on, educator-guided experience with AI, preparing them for a tech-driven world while helping close equity gaps.

Protects Student Data & Keeps AI Safe
Built for schools with strict privacy safeguards and district-approved, responsible-use guardrails.

Aligns with District-Approved Curriculum
Unlike open AI tools, MagicSchool aligns to school standards—helping teachers stay on track while adapting to diverse student needs.

Boosts Teacher Capacity & Morale
Reduces burnout and improves retention by lightening teacher workloads and supporting high-quality instruction in every classroom.

We are hoping that our staff and students utilize this program to its fullest potential.
