

Taylor Ridge Elementary School

Updates and Information

Happy Friday TRE Families and Friends.

Welcome Back!

We had a fantastic week getting back into the swing of things! It was wonderful to see all of our students' smiling faces, energized and ready to return from break.

Report cards were sent out through email this morning. If you have any questions please contact your student's teacher directly.

Next week, we will begin our Winter MAP Testing. It is important that students give their best effort on these assessments so we can accurately plan and support their learning for the current semester.

To ensure all students can participate safely in PE, please remember to send them with gym shoes every day. If your student wears boots, Crocs, or slippers/slides to school, please pack a pair of athletic/gym shoes in their bag.

There are several deadlines and dates approaching. Please check out the "Important Dates" section below to stay updated on yearbook orders and dismissals.

As always, if you have any questions for us at TRE feel free to contact the office at (309)-793-8070.

-Mr. Goben

Important Dates for this Week/Near Future

Personalized Yearbooks - Order Deadline Feb. 1st (see flyer below)

Non-Personalized Yearbooks - Order Deadline April 3rd (see flyer below)

11:30 Dismissal Jan. 16th

No School Jan. 19th

11:30 Dismissal Jan 30th

If you have a student who will be entering Kindergarten next year,
please click this link and fill out the form!

Grade-Level Learning

Kindergarten

Following directions can be challenging for young students! An important way we will practice Perseverance in Kindergarten this month is by learning to follow directions. Strong Listening is foundational for following directions. When we listen with our whole selves and follow directions, we are able to Persevere through big projects and tough challenges.

First Grade

In 1st grade, we are learning focusing strategies that help us Persevere. Focusing on a task, instructions, or even a conversation helps us be more successful.

Second Grade

While practicing Perseverance this month, 2nd grade students will be focusing on the idea of engagement. This means being an active participant in school, leading and contributing when collaborating in groups, getting involved in school and community groups, and building positive relationships. When we are actively engaged in our school and community, we demonstrate Perseverance.

Perserverance Overview

This month is all about Perseverance. One way to think about Perseverance is “pushing yourself through challenges and obstacles.” We all experience challenges in our lives. We all have moments when we feel like we can’t do it or that we want to give up on a big task. It is important to develop tools that help us work through those challenges in order to grow in those moments instead of giving up. How might you practice Perseverance as a family this month?

Strategies for Following Directions

1. Pay attention to directions with Strong Listening
2. Ask questions if you are confused
3. Do what you are asked to do the first time

Be Kind, Be Strong, Be Well

Skim, Chocolate and 1% White milk served everyday

NURSE NOTES

WHAT WE'RE SEEING THIS MONTH IN OUR SCHOOLS

'TIS THE SEASON for illness

INFLUENZA

Symptoms of the flu include fever, cough, sore throat, runny or stuffy nose, body aches, headache, chills, and sometimes vomiting and diarrhea. Some people with the flu will not have a fever. If you suspect your child has influenza please do not send them to school and contact your child's physician for recommendations.

STREP THROAT

Strep throat symptoms include a sore throat, abdominal pain, vomiting/diarrhea, rash, and fever. It is diagnosed by a rapid antigen test done in a physician's office.

This test can detect strep bacteria in minutes by looking for substances (antigens) in the throat. If you or your child tests positive for strep throat, antibiotic treatment can begin right away. Some rapid strep tests may miss some strep throat

Rapid strep tests may miss some strep throat infections. For this reason, many doctors still use throat cultures, especially in children if results of the rapid antigen test are negative. If you are waiting for throat culture results please keep your student home if they still complain of symptoms.

COVID

Symptoms of COVID include, fever, sore throat, coughing, loss of taste and smell, fatigue, shortness of breath, and body aches. COVID is diagnosed by a rapid antigen test that can be done at home or a PCR that can be done by a lab/physician's office. Current CDC guidelines recommend that positive COVID individuals stay isolated x 5 days and return wearing a mask if feeling better and fever free x 24hrs without fever reducing medication. A mask is recommended through day 10 after the symptoms started, if there is a negative test on day 6 and day 8 the mask is no longer recommended.
