Week of June 5th, 2026

Principal Update

Our community came together for an unforgettable moment of pride, inclusion, and pure energy! Both our Fit Kids Run Club and our Unified Team teamed up to run a special leg of the Special Olympics Windsor Police Torch Run. As the flame made its way down Park Avenue past JFK School, our incredible athletes laced up their sneakers to run side-by-side with members of the Windsor Police Department and WPS staff for an inspiring quarter-mile stretch. The high-fives were flying, the smiles were infectious, and the spirit of unity was on full display. A massive thank you to everyone who came out to cheer, run, and support this amazing cause—you truly showed what makes our school community so special!

4th Grade Update

This week in Humanities, students finished reading the novel *Starry River of the Sky* by Grace Lin. This book positioned students to make connections between the characters and the four different storylines taking place. After finishing *Starry River of the Sky,* students are transitioning to their final book of the year, *The Amazing Life of Benjamin Franklin.* Students are reading this picture book biography to help them understand how to use different text features to most effectively support their text content understanding. Next week, we are looking forward to reflecting on all of the books we have read this year as we wrap up the end of 4th grade!

This week in STEM, students have been working hard in geometry, learning how to classify triangles and quadrilaterals. Next week, they'll complete fun projects to review and celebrate all they've learned in math and science. Over the summer, we encourage students to continue reviewing important 4th-grade concepts to help them feel confident and ready for 5th grade. We are so proud of their hard work and growth this year!

Dates To Remember: *Important dates for parents/guardians*

June 11th	SOAR/BAND Concert 6:30-7:30
June 15th	Early Release/Last Day of School

Introducing MagicSchool AI to Windsor Public Schools

Dear Windsor Families,

We have launched **MagicSchool**, a secure AI platform designed specifically for education that fully complies with Connecticut Student Data Privacy laws.

Our goals:

- **Privacy First:** MagicSchool ensures a safe, controlled environment where student data remains private and secure.
- **Teacher-Led Learning:** AI is a tool to support instruction and provide personalized differentiation; it does not replace the vital role of the teacher.
- **Age-Appropriate Tools:** Students will access specialized tools, like research assistants and critical thinking partners, designed for their grade level.
- **Guidelines**: In alignment with our AI Guidelines, we will use MagicSchool to enhance, not replace critical thinking and creativity.

We are committed to a balanced approach that values traditional learning and limited screen time while preparing students for a digital future.

Frequently Asked Questions

How are we making sure kids aren't using AI to do their work for them?

Across Windsor Public Schools, AI is used to enhance, not replace, student thinking. Magic School is used to support not replace student thinking. MagicSchool does not allow students to freely search the internet; all student access is structured around teacher-assigned tools, class-based content, and controlled parameters to ensure a safe and focused learning experience. Teachers design lessons that require students to explain their thinking, participate in class, and apply learning independently.

How do we prevent AI plagiarism?

We have clear expectations that AI is a tool, not a substitute for original work. Students are taught to cite AI when used and to be transparent. Students are taught that AI is a tool not their own work, and must be used responsibly. Teachers emphasize process, in-class work, and student voice, and misuse of AI is addressed in alignment with school policies.

How do we address the use of AI in brainstorming and creativity?

Magic School includes age-appropriate tools that help students generate ideas and ask questions. AI is encouraged as a brainstorming and feedback tool, helping students generate ideas and refine their thinking. However, students are expected to build, revise, and create original work. Creativity and critical thinking remain at the center of all assignments.

How do we address misinformation and inaccuracy? ("Trust but Verify")

Students are taught to always verify AI-generated content. Magic School is a starting point for learning, not the final answer. AI can produce inaccurate or biased information, so students must cross-check sources, evaluate credibility, and think critically. “Trust but verify” is a core expectation across all grade levels.

How will AI affect learning?

Windsor Public Schools approach balances innovation with traditional learning (teacher-led), ensuring students continue to develop strong foundational skills and critical thinking. AI will support personalized learning and differentiation while keeping teachers at the center of instruction.

How do we handle bias and fairness?

We explicitly teach students that AI can reflect biases. Students learn to analyze responses, question assumptions, and consider multiple perspectives. There is also zero tolerance for using AI to create harmful, discriminatory, or inappropriate content.

How do we protect student privacy and safety?

Students use district-approved tools like MagicSchool in a secure environment that complies with student data privacy laws. They are taught to never input personal or confidential information into AI systems. Protecting student data is a top priority.

To close, AI will never replace the "inspired teaching" that defines a Windsor education. By using MagicSchool as a supervised thinking partner, we are helping Windsor students move from being passive consumers of technology to becoming empowered, ethical, and "life-long learners."

For more information, please review our **WPS AI Guidelines** or reach out to your school principal.

Sincerely,

Dana Gagne
Principal

We strive to make your visit to our schools both pleasant and productive. Family engagement is essential to student success, and we encourage you to connect with the staff who support your child. Whether you are observing a classroom or volunteering through prior arrangements with the Family Resource Center (FRC) or a teacher, we appreciate your partnership.

To ensure student safety, protect instructional time, and accommodate all families, please follow these guidelines:

Scheduling Your Visit

- Volunteering must be scheduled at least 24 hours in advance through your child's teacher or the FRC.
- Classroom observations must be scheduled with administration
    - Observations are limited to 20 minutes to minimize disruption
    - Only one parent/guardian may observe at a time due to space limitations. Please arrange care for younger children; the FRC can assist if needed.

Arrival and Safety

- All visitors must sign in and sign out at the front lobby with a valid ID, be processed through the Raptor System, and wear a visitor badge/sticker at all times.
- **Parents/guardians are expected to drop off their child outside, not inside. If students are brought after 8:45 the doors will be closed and they will need to be signed in at security and will be marked tardy.**
- Visitors will be escorted to and from their destination.

Classroom Expectations

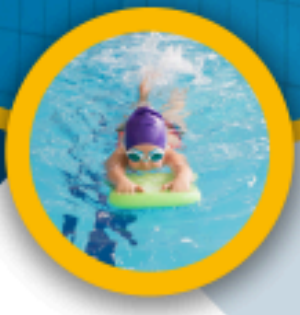

- Recording (audio or video) is not permitted.
- Respect student confidentiality—do not discuss other students outside the classroom.
- For questions or feedback, please schedule a separate time with the teacher.

Please note that the principal may reschedule or decline visits if they would disrupt the learning environment.

Thank you for helping us maintain a safe and focused school environment. We look forward to partnering with you!

READY TO DIVE INTO SUMMER?

- CAN YOU SWIM 2 LAPS OF FREESTYLE AND BACKSTROKE?
- ARE YOU FOCUSED AND DETERMINED?

Parenting Adolescents Toward Healthier Ways (PATHWays)

School avoidance is a complex issue that involves the child who struggles with attendance, parents, and school systems.

The Anxiety Disorders Center is researching a treatment program that will focus on assisting parents in addressing the problem of school avoidance. This research will examine the use of a daily parent diary during treatment to track time in school, sleeping, using screens, and engaged in physical activity.

The PATHWays program aims to help parents:

- Understand how accommodations for anxiety may contribute to school avoidance.
- Learn ways to reduce accommodations.
- Create rules/structure around sleep, screen time, and activity.

Parents/guardians of students (ages 12-18, grades 6 -12) who are struggling with school attendance may be eligible for this research program.

If you know a family that would be interested in our program or would like more information about our program, please contact the Anxiety Disorders Center at (860) 545-7707.
