CLEAR BAG PROTOCOL

Did You Know?

Earth Day is April 22

Did you know that our home is the only planet in the solar system known to have liquid water on its surface? That's why Earth is often called the "Blue Marble."

Earth Day is a special day celebrated every year on April 22nd to remind us how important it is to take care of our amazing world. Whether you are **planting a seed, picking up litter, or turning off the lights when you leave a room**, every small action helps keep our air clean and our oceans blue.

Amazing Earth Facts

There are so many cool things to learn about our planet! Here are a few "did you know" facts to share with your friends:

- The very first Earth Day was celebrated in 1970—that's over 50 years ago!
- Recycling just one aluminum soda can saves enough energy to listen to a full album on an iPod or power a TV for three hours.
- Scientists estimate that Earth is about 4.54 billion years old. That's a lot of birthday candles!

You don't need to be a grown-up to be a Planet Protector. You can start today by following the three Rs: **Reduce, Reuse, and Recycle**. Try using a reusable water bottle instead of a plastic one, or use both sides of your paper when drawing.

If everyone in our school did one small thing for the environment today, it would add up to a huge gift for Mother Nature. Let's work together to keep our Earth happy and healthy!

JOKE OF THE WEEK

What do you call an egg with perfect attendance?

Egg-cellent!

Submitted by
Emilee Davis
Ms. LeSueur's class

Cafeteria Champions

Each week a grade level earns the right to be the Cafeteria Champion. This is earned by students being respectful, sitting quietly, and keeping their area clean. Champions are announced each Friday and the grade level that earns this right is allowed to sit with whomever they choose for the following week.

Congratulations to
2nd Grade - April 10 - April 16
5th Grade - April 17 - April 23

Spirit Fun Week

May 4th - 8th

May
4

Tie Dye T-shirts

Wear a tie dye T-shirt.

May
5
