

New Parking Lot Procedures for Lakewood Elementary

As you are approaching Lakewood you will notice new signage stating that if you are dropping off or picking up the new line up will be straight ahead to the side of the school where buses used to be prior. Please stay in line with the other vehicles. Do not pass and do not park on the side of the road and get out of your vehicle to go inside Lakewood.

Please make sure you stop at the new 3-way stop. You are asked to yield to busses first so they may leave in a timely fashion and not block the pick up and drop off process. We thank you for being patient in this request.

Please pull up as far as possible when picking up or dropping off your student. Once again do not park in this area under any circumstances. If you need to come inside please park in the visitor parking lot and then proceed inside. Please make sure your child is ready to exit the vehicle and does so in a timely fashion. **DO NOT** get out of your vehicle to let your student out. This could risk injury to yourself or others

Once you have left the drop-off/pick-up area please follow the drive and loop around and exit at a slow speed. Please be aware of any students or parents around you. Once again make sure you note the new 3-way stop and yield to any busses departing our school.

If you need to park please park in the Visitor lot which are the first 2 rows of our parking lot

Please note the new bus drop-off / pick-up lane and staff parking is on the right side of the parking lot. We ask that no parents for any reason enter here or park here. This is only for staff and busses only
