- ✓ Recognitions

Academics

- ✓ Test Scores
- ✓ STAR
- ✓ Summer Programs sign up/
Afterschool
- ✓ IXL
- ✓ Recognitions

Community Outreach

- ✓ Partnerships
- ✓ Parent engagement events

Notes:

First meeting since being back at our school.

Behavior:

PBIS:

We are on Tier 2. Mainstreaming expectations with all staff. Posters are up across the school. Teachers have their data folders for behavior. They are to keep track of the data for incentives. The last behavior award was a basketball game with held by the high school. Behavior referrals have decreased since being in our new building.

Expectations: Each teacher has a folder to track their data.

Incentives: there is an incentive planned for March 25th. Sharon will provide the award.

Attendance: We are at 92% attendance for the last several weeks. We are experiencing lots of Flu, Strep, and stomach bug.

Motivation: we haven't been able to do attendance motivation because of the poor attendance. The last attendance award only had 65 attend. The last one was a club day.

Recognitions: We will do another club day in March. We are talking about the end of year incentive.

Academics:

Test Scores: Mrs. Barrett, Mrs. Sigley, and Mrs. Baughman met with teachers to go over their personal data. We are focused on the end of year assessment.

STAR: We have one more window open for testing at the end of the year.

Summer Programs sign up/ Afterschool: The kids that stay for afterschool are doing better academically than the students that are not staying.

IXL: We have one more window open for the testing at the end of the year.

Recognitions: IXL Data trackers

Community Outreach:

Partnerships: Laurel Creek is always willing to help with anything we need. Cherry River lumber donated a Fridge for the staff lounge.

Parent Engagement events: We have 2 math events planned on March 17 and 24.

Next meeting scheduled for May 19 at 9:00.
