Nicholas County Homeschool Families

Dear Homeschool Parents and Guardians,

As a reminder, all homeschool students are required to annually take an end of the year academic assessment. These results are to be shared with the local board of education by June 30th for students in the 3rd, 5th, 8th, and 11th grades. Nicholas County Schools offers testing in grades 3rd through 8th, as well as 11th grade. We would welcome your homeschool student(s) to participate.

There are different assessment options and choices available for you. They are as follows:

1. Standardized Test given by a Certified Person or Organization.
2. Portfolio Review evaluated and signed by a certified teacher.
3. WVGSA State Test (Grades 3-8)/ SAT School Day (Grade 11): Given by Nicholas County Schools

Nicholas County Schools offers testing in the following grade levels: Grades 3-8 (West Virginia General Summative Assessment (WVGSA)) and Grade 11 (West Virginia College and Career Ready Exam (SAT School Day)).

If you would like your student(s) to participate in either assessment, please notify Nicholas County Schools by February 28th. You can also complete a Request for Homeschool Student(s) to take the WVGSA or SAT School Day by going to the Nicholas County Schools Website and completing the questionnaire located under the tab For Parents.

Warm Regards,

Laura Jarrett
