Dear Trinity Families,

We are thrilled to share exciting news that marks a major milestone in our school's growth.

Trinity Catholic School has officially been named a Woz Ed STEM Pathway School!

This designation comes from Woz Ed, the STEM education company founded by **Apple co-founder Steve Wozniak**, and it places Trinity among an elite group of schools nationwide transforming the future of education through hands-on, innovative learning.

Even more exciting:

- Trinity is the **first school in the Diocese of Little Rock** to earn this designation.
- The **first school in the River Valley and Northwest Arkansas** recognized by Woz Ed.
- And only the **second school in the entire state of Arkansas** to become a Woz Ed Pathway School.

This means BIG things for our middle school students. Beginning this year, students will experience:

- Hands-on engineering, robotics, coding, and 3D printing
- Real-world problem solving aligned with authentic career fields
- A Careers STEM Exploration class for all 6th graders
- STEM pathways that spark creativity, innovation, and future career exploration
- Learning that builds confidence, teamwork, and critical thinking skills

Woz Ed programs are designed to prepare learners for the technology-driven jobs of tomorrow, and we are proud to bring this national-level STEM experience directly to our Trinity students. Thank you for your continued support as we work to create the best learning environment for your children.

The future is bright — and it's happening right here at Trinity Catholic School!

With excitement,

Mr. Zach Edwards, Principal

Trinity Catholic School

FOR IMMEDIATE RELEASE

Trinity Catholic School Earns Elite WozEd STEM Pathway School Designation

Fort Smith, AR (November 17, 2025) — Trinity Catholic School proudly announces that it has been officially designated a WozEd STEM Pathway School, joining an elite network of schools nationwide dedicated to equipping students with future-focused, technology-driven skills. Trinity is the first school in the Diocese of Little Rock, the first in the River Valley and Northwest Arkansas, and only the second school in the state to achieve this distinction.

WozEd, founded by Apple co-founder Steve Wozniak, partners with innovative schools to deliver hands-on, industry-aligned learning pathways in robotics, coding, 3D printing, engineering, and emerging technologies. The program is designed to prepare students for the rapidly growing STEM careers of tomorrow.

Zach Edwards, Trinity Principal, states, “At Trinity, we believe every child deserves the opportunity to explore, create, and innovate. Becoming a WozEd Pathway School ensures that *every student in every grade* will have access to high-quality STEM education that prepares them for the world they’re growing into. This is not a program for a select few—this is an investment in the future of every child who walks through our doors. This is a tremendous step forward for our school community.”

As a WozEd STEM Pathway School, Trinity Catholic School will provide:

• Hands-on, project-based learning

• Curriculum aligned with real technology career fields

• Exposure to STEM tools such as robots, coding platforms, drones, and 3D printers

• Pathways that build engineering mindsets, collaboration, and critical thinking

• Opportunities for STEM career exploration starting in middle school
