Dear Parent/Guardian,

First Care Clinic is dedicated to improving your child's oral health and will be offering free dental screenings and fluoride applications at your school on **Wednesday, October 7th, 2026**.

These free screenings are provided for all students unless they are opted out by a parent or guardian. Each screening takes about 30 seconds and is non-invasive. The teeth are observed by our dental hygienist, and any obvious concerns are noted on a form that will be sent home with the student. We urge you to allow your child to be screened to obtain an accurate assessment of dental needs within the school.

- **Screening Only**: No paperwork needed.
- **Screening and Fluoride Varnish**: If you'd like your child to receive fluoride (a protective coating placed on teeth to make enamel stronger), please complete the attached Fluoride Consent Form (on back) and return it to school by ***September 30th, 2026.***
- **No screening/Opt Out:** Please complete the opt-out portion below and return to school by ***September 30th, 2026.***

Outreach services are provided at no out-of-pocket cost. If you have insurance, then please provide the insurance information on the next page so your insurance can be billed. You should not receive a bill for outreach services. If there would be an error and you receive a bill for dental outreach, then please contact our billing department at 785-621-4990.

Sincerely,

First Care Clinic

I do not wish to have my child participate in the free dental screening.
