

THE ATHENIAN GUILD

AWARD: Owl lapel pin

CRITERIA:

Up to ten percent at each grade level are eligible.

Members will exhibit the qualities of growth in:

Being fully prepared for class

Being intellectually curious

Having strong skills in reading, writing, listening and speaking

Modeling positive classroom behavior; such as contributing to discussion, assisting others and advancing the learning process

Athena was the goddess of wisdom and strategy. She was considered the brain child of Zeus. She represents applying knowledge to life. She is the patroness of wisdom, reason and justice. The owl is the symbol of Athena.

1792 SOCIETY OF DISTINCTION—SOCIAL STUDIES

The Social Studies Department's 1792 Society of Distinction Award is named in honor of the year in which the Town of Westmoreland was founded.

AWARD: 1792 Society lapel pin

CRITERIA:

Students who receive this award have demonstrated an intense interest in the social sciences. They are students who understand that history is as much a study of the past as it is a study of the present and future. These students have exhibited the ability to apply the lessons of the past to the present era in order to help lead the next generation of American citizens towards a better tomorrow.

SIGMA THETA PI

AWARD: Certificate designed by the math department

CRITERIA:

Students inducted into Sigma Theta Pi have expressed an avid interest in the subject of mathematics. They actively participate in class by initiating appropriate discussions, and they clearly demonstrate the drive to develop a deep understanding of mathematical concepts. In displaying a positive attitude, they transcend expectations and make connections between mathematical theory and applications. Furthermore, they possess a strong work ethic to achieve success and show an eager readiness to learn, while having respect for all learners. In essence, a student inducted into this society is intrinsically motivated, setting a lofty standard for themselves and others in class, while illustrating their passion for mathematics.

SCIENCE SOCIETY

AWARD: Science medal on neck ribbon

CRITERIA:

Good morning, I'm here today to introduce a group of exceptional students whose dedication to the pursuit of knowledge, curiosity about the natural world, and commitment to academic excellence have earned them a place in our Science Honor Society.

Membership in this society is not granted lightly. It is reserved for those who consistently demonstrate a deep passion for science—students who ask thoughtful questions, seek understanding beyond the textbook, and see science not just as a subject, but as a way of exploring and improving the world around them.

These inductees have distinguished themselves through their high academic achievement in science courses, their inquisitive minds, and their active engagement both in and outside the classroom. They are the ones who stay after class to ask just one more question, who lead experiments with enthusiasm, and who inspire their peers through their relentless curiosity.

As we welcome them into this honor society, we recognize not only their past accomplishments, but also their potential to lead, discover, and innovate in the years to come.

Here are the members of this year's Science Honor Society:
