4/30/2026

Dear Parents, Teachers, Staff, and Community Members,

As the 2025–2026 school year comes to a close, I find myself reflecting on the goals we set together last August. It has been a year defined by the growth, resilience, and success of our students, and I am incredibly proud of how our Tiger family has come together to make this year a reality.

The achievements we've seen in our classrooms and extracurricular activities are a direct reflection of the heart our students pour into everything they do. These successes are only possible because of the dedication of our teachers, coaches, and support staff—from the front office to the cafeteria and our buses—and the unwavering support you provide at home. I also want to personally thank those who went above and beyond by offering donations of food and clothing to support our families in need. That kindness is the true spirit of Crescent.

As we reach these final weeks, I encourage your attendance and support for our upcoming banquets, award assemblies, and graduation ceremony. There is nothing quite like seeing the pride on a student's face when they are recognized by their community. Your presence is a powerful way to show our kids that their hard work makes a significant difference.

Because of your trust and the bond proposal, our campus is undergoing a true transformation. We are excited to announce that new playground toys and HVAC upgrades are now complete. Furthermore, renovations continue at our gymnasium and FFA show barn, and we are moving forward with new lighting at the football field. We have also successfully invested in the technology, safety systems, and transportation necessary to keep our students moving forward safely. Beyond these immediate projects, the Board of Education and I are engaged in ongoing planning for future capital investments, including a long-term vision for new school buildings.

As we enter these final days, our focus is on finishing this year with excellence. We need your help to cross the finish line by completing one vital task: **please take a moment to complete the online pre-enrollment forms as soon as possible.** These numbers are the biggest factor in our decisions regarding staffing and teacher placements. Having an accurate count now allows us to ensure we have the right educators and resources ready to support your children.

Thank you for your continued support and for making Crescent Schools a place where our kids can truly thrive.

Sincerely,

Mike Franz Superintendent, Crescent Public Schools
