The Milestones Fund

**Encouraging
Easton Valley
graduates as they
launch successful
careers**

Milestones Background and Goal

A successful start is an important event in the many chapters of our young peoples' lives; hence the title: "Milestones."

The Milestones Fund began in 2018 as an attempt to let Easton Valley graduates who are entering the field of work know that we are proud of them. The careers they choose are important to meet the need for skilled workers in our communities.

All career choices made by graduating seniors involve financial challenges. Those heading to college can apply for scholarships to help with their expenses, but seniors seeking employment have not previously had that opportunity.

Investments in tools, clothing, and transportation can be significant hurdles. No longer do we want career decisions negatively impacted by necessities if we can help make a difference.

Skills training programs encouraged include: truck driving, heavy equipment operation; industrial technology including electronics, welding, plumbing, construction; mechanical technology, auto repair, and power mechanics; cosmetology; health care programs including CNA, dental assistant, dental hygienist, and radiology technology.

Q&A

What are milestones?

The dictionary definition is "an action or event marking a significant change or stage in development". Just as learning to walk is a milestone in child development, finding a job with promise or learning a trade is a milestone to our graduates.

Who can apply?

Graduates of Easton Valley who are not planning to attend college and do not therefore qualify for other scholarships.

Where does the money come from?

Contributions of any size can be made by people who believe in our graduates and the life afforded to those living within our communities.

Where is the money kept?

Clinton National Bank with branches in Miles, Preston and Sabula. This is a checking account from which cashiers checks will be written to qualifying recipients.
