Oct 9 @ Penderlea  
Oct 10 @ Topsail

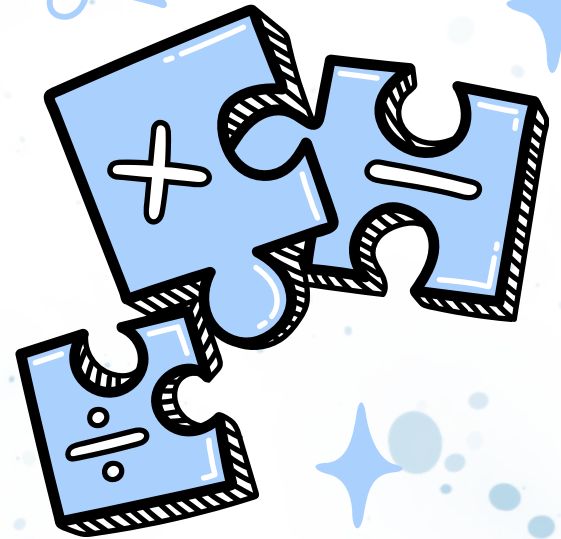

#### Football:

Oct 2 @ Surf City  
Oct 9 @ Topsail  
Oct 16 @ Penderlea

## MATH

Students are learning about algebraic expressions and working with exponents. Remember that daily bell-work is due every Friday and counts as 50 points towards your 100-point weekly Friday quiz.

## ELA

Students are working on their Common Lit Unit One Culminating Task Prompt: *What will it take to achieve success this school year?*

Students will prepare a presentation explaining how they will use the ingredients from the recipe for success to be successful this school year.

Students will use examples from the texts and videos in this unit to support the information in their presentation. Their presentation must include a visual component to convey information.

## SOCIAL STUDIES

We're now in our second unit of the year: *The Birth of Civilization*.

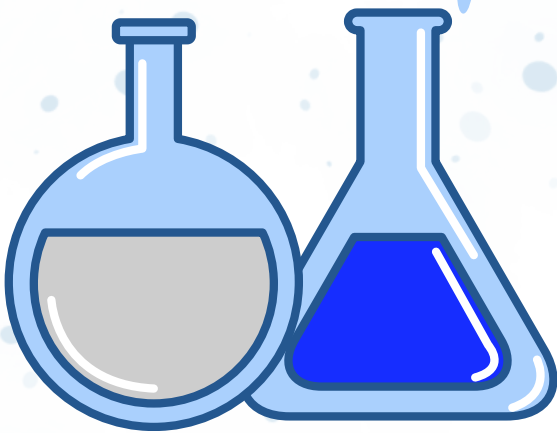

This unit focuses on three Metal Age river societies: the Indus Valley, Mesopotamia, and Egypt.

Our goal is to understand how the people of these cultures adapted to and utilized their environments to improve their lives and civilizations.

## SCIENCE

Students will continue to explore elements on the periodic table and find ways to classify different materials based on their physical and chemical properties. Students will have opportunities to engage in investigations to help understand more about the properties and begin to see how adding thermal energy (heat) can affect substances in different ways.

## IT'S HISPANIC HERITAGE MONTH!

National Hispanic Heritage Month is from September 15 to October 15.

We will be celebrating Hispanic heritage each week during Grizzly Time by learning about influential Hispanic Americans and their contributions to the history and culture of the United States.

## LET'S HEAR IT FOR OUR 6TH GRADE ATHLETES!

### Cheer:

Paityn Shaw  
Kynleigh St. Pierre

### Softball:

Sidney Highsmith  
Serenity Hornbeck  
Mariela Reyes  
Braylie Saunders  
Audrina Smith  
Morgan Smith
