## Other Important Items:

- The purpose of the course selection worksheet is for parents and students to plan their course selection together. Your student will then add the course selections from their worksheet into Class Choice on the computer at school, with assistance of school counselors. If parents want to participate in the Class Choice course selection, join us for the “Your West Ada High School Journey: Academics, Activities, & Athletics” event on March 10, 2026 at Centennial High School from 6:00-8:00pm. During this event you will learn about activities, athletics, clubs, academic course, graduation requirements, and advanced placement classes.
- When planning your course selection classes, we encourage you to use your 5-year planner. This is a workable planner that can be changed, updated and edited when planning. Access the 5-year planner on your student's Rapid Identity.
- Please complete all required parts of course selection as all students 9-11 grades must be full-time West Ada students (7 of 8 periods). If you are not, you will not be eligible to participate in cocurricular/extracurricular activities, participate in graduation, and would be considered a less than full time student. (Policy 500.1)
