# New Year, New Faces!

## PHS adds new position

By Morgan Bax

Donna Soulek is a new staff member at Parkston High School. She chose Parkston because she feels we have one of the best school systems around and the opportunities available are great for the future of her son. She and her family love the people here. It is a great fit for their family.

She has played many different roles here in the school. She started volunteering for centers in the elementary school. Then, she became a long-term substitute in the elementary for the title program. Last year, she was a paraprofessional for the elementary and this year, she became the K-12 Math Interventionist. Prior to coming to Parkston to teach, she taught for fourteen years. She taught math, computers, physics and coached. She taught six years at Marty Indian School, Marty, SD and eight years at Crofton Community Schools, Crofton, NE.

The math interventionist position is new this year and is intended to identify lags in learning and help fix them to give more success for each student. "I want to erase the stigma of getting help. Just because a student works with a math interventionist doesn't mean they are behind," Mrs. Soulek said. She is here to help students, so they do not fall behind. She will be reteaching core concepts to meet each learners' needs. She enjoys working with all age groups. Students that are willing to try is what brings success to them. She looks forward to helping any child of any age that needs individual attention. "It is always frustrating when a student fights for the help available. It is not a sign of weakness or failure. It is quite the opposite. We all need help from time to time. It is another tool that could be used to prevent failure!" She loves being a part of helping our students reach their goals to be successful.

Her goal as a teacher is to help students reach their highest level of education and fully succeed as individuals who make a difference in this world. If they can dream it, anything is possible! Lastly, her advice to students: "In a world where you can be anything, be kind, treat others the way you want to be treated, leave any place better than you found it, and mostly volunteer for a cause you are passionate about – nothing is better than giving back to your community."

## New teacher, familiar face...

By Samia Benson

As we come into this unmasked year we welcome some new teachers, one being Mrs. Katie Bialas. Katie is a born and raised true Parkston resident—she even graduated from Parkston High School. This will be Katie's first year teaching at Parkston but her fourth year of teaching. When asked what she loves most about teaching she says she loves the challenge of math and working with kids.

Bialas also loves spending time with her 5-month-old son, Bentley, and her husband, Myles who was her high school sweetheart. You can find Mrs. Bialas in room 110 where she teaches 7th and 8th grade math and Algebra 2.

She also goes to mention how she relishes the Parkston community so much because they are so supportive and close to one another.

"Thank you to Parkston school district for the warm welcome and support as I start this journey with PHS."

## Midget Baseball team ends season Champs

By Brielle Bruening

The Parkston 12 & Under team competed against 20 teams in the 2021 State Tournament in Webster, July 9-11. They were able to rattle off five wins in three days to capture back-to-back state titles for Parkston, finishing their season 32-3. This marks the third 12U title for the program with the first coming in 2008.

Three pitchers combined to a no hitter against De Smet in the first game of pool play, while winning 11-0. In the second game, they played a solid Hamlin team, defeating them 6-1. After winning their pool, Parkston advanced to the championship bracket and in game 3, three boys combined for another no hitter and beat Groton 10-0. On championship Sunday, Parkston battled Canistota/Freeman in the semi-final matchup. Canistota/Freeman scored the first two runs of the game in the fourth inning. What seemed like an uphill battle to score, the boys managed to push across four runs in the bottom of the fifth in-

ning to win 4-2 in six innings.

In the championship, Parkston battled a familiar foe in Mount Vernon-Plankinton. MVP took an early lead, scoring one in the second and two in the third, giving them a 3-0 lead. Again Parkston had to come from behind. They rattled three straight hits and scored three runs in the fourth inning to tie the game back up. After 2½ additional innings of scoreless ball, Parkston walked off the winning run to a 4-3 win in 7 innings, capturing the 12U State B Championship for a second year in a row. The players were Mark Deckert, Landon Weber, Gage Jodozi, Mason Jervick, Carson Bueber, Grady Bowar, Brycen Bruening, Kelby Neugebauer, Aiden Overby, Andrew Weisz, Reco Muilenburg, Johnny Weber, Jayden Digmann, Ty Kummer, Luke Norden, and Javin Kniffen. Maxwell advanced in the competition after being named the Sioux Falls Skyforce Local Jr. NBA Coach of the Year back in April. Although he didn't advance to the next round, he was honored to make it to the semifinals, and he received a Jr. NBA Coach gift bag & a free Positive Coaching Alliance Zoom workshop for the coach's team/organization from making it to the semifinals.

He tries to focus on the sixth-grade boys' level the most. Bill does not get paid for coaching nor does he have a child in the program, he does it for the passion of the kids and basketball. He carries on the legacy of his late father who coached the same program for 25 years.
