

Fredericksburg Elementary has set up clothing guidelines for when the weather starts to get cold. The temperature on which these are based is taken from **REALFEEL on Accuweather**. Students in grades K-4 should wear the following on the playground:

- **55° to 60°** - long sleeves
- **41° to 54°** - coat or something to put over what is worn to school
- **40° and below** -coat, hat, and mittens
- **0° or less**-recess will be indoors
- During bad weather and when there is snow on the ground or blacktop, students are required to wear snow pants and boots. A sign will be posted in the building notifying students when this is required.
