

Attendance

Be aware of the following attendance requirements:

- **Absences 1-9**: Parents may submit a parent excuse note for up to 9 total absences, whether excused or unexcused.
- **Absences 10-15**: A doctor's note is required for the absences to be considered excused.
- **After 15 absences**: Absences can no longer be excused.

Regular School attendace is essential to student success, especially during the middle school years. Middle school is a time when students build the academic skills, study habits, responsibility, and confidence they need to be successful in high school and beyond. Every school day matters!

When students miss school, they may miss important lessons, classroom discussions, hands-on activities, assignments, and opportunities to ask questions and receive help from their teachers. Even a few absences can make it difficult to keep up with coursework, while frequent absences can lead to learning gaps, lower grades, and increased stress when trying to catch up.

Attendance also helps students develop responsibility, establish positive routines, bnuild relationships with teachers and classmates, and strengthn the habits needed for future success. Being present and engaged each day gives studenrts the best opportunity to learn, grow, and reach their full potential.
