Roxana's Learner Experience

"My name is Roxana. Starting a business is a path full of challenges, but the most difficult for me wasn't financial or logistical, but rather the silence imposed by my lack of fluency in English. I felt limited, as if my business had a ceiling I couldn't break through.

Today, thanks to my school, Eglinton LINC Centre, that silence has ended. This school didn't just teach me grammar; it gave me the voice and the confidence I needed to negotiate, connect, and run my small business with greater confidence. Now I know my venture has no borders, because I finally have the words to make it grow."
