

Power Lineman Training Opportunity for Students

We are excited to announce a potential new workforce development opportunity available to students at Wayne High School, Spring Valley High School, and Tolsia High School.

In partnership with GMB Powerline Services, we are exploring launching a Power Lineman Career Training Program fully funded by GMB.

Informational Meetings: Interested Students are invited to meet with GMB and School Representatives. Parents are also invited to attend.

Friday, March 27, 2026 9:40 a.m. Tolsia High School

Monday, March 30, 2026 9:40 a.m. Spring Valley High School

Monday, March 30, 2026 12:15 p.m. Wayne High School

Who Should Consider This Program?

Students who may be interested in hands-on outdoor careers, seeking high-demand skilled trades, motivated to learn technical skills used in utility linework, and ready to explore career pathways in the power industry. Introductory course opportunities for 9th and 10th grade and Powerline Program for Juniors and Seniors.

What Students Will Learn

- Fundamentals of electric power distribution
- Line worker tools, equipment, and procedures
- Safety standards and industry expectations
- Basics of transmission and distribution systems
- Physical and teamwork skills required for utility fieldwork

About GMB Powerline Services

GMB Powerline Services is a nationwide utility contractor providing storm restoration, transmission and distribution, and emergency response services. GMB maintains a utility-grade fleet, employs highly trained professionals, and emphasizes safety, quality, and reliability across all operations.
