Fredonia, New York 14063

Dear John:

Re: Fredonia Central School District, Chautauqua County, New York;
Bond Resolution for \$22,100,000 Keeping Our Students Warm, Safe and Dry Project (Prop. No. 1)

Congratulations again on the successful public vote (in December) on the work under Proposition No. 1 for the capital project. Although the result of the vote on the second proposition was disappointing, at least the first proposition was approved. It was very nice to see the positive margin on the first proposition.

In keeping with the proper sequence of events, and in accordance with the discussions and e-mail exchanges that have been taking place among the working group members, I have now enclosed an extract of minutes document containing a bond resolution authorizing the first component of the approved work (i.e., for the "Keeping Our Students Warm, Safe and Dry Project" that was the subject of Proposition No. 1), and its future plan of financing. I understand that this is scheduled to be presented to the Board of Education for consideration at the June 17, 2025 meeting.

Please note that this bond resolution must be adopted by the affirmative votes of at least two-thirds (2/3) of the entire voting strength of the Board, not just those in attendance. In other words, this bond resolution must receive at least five (5) affirmative votes to be effective.

Also enclosed is an estoppel notice containing a summary of the bond resolution. This one page should be submitted to the District's official newspaper (which we understand to be for this purpose the *Evening Observer*) immediately after adoption of the bond resolution. It should be published one time in the newspaper.

As soon as they are available, kindly arrange to forward to me two certified copies of the extract of minutes document containing the bond resolution, and the original affidavit of publication from the *Evening Observer*. For your convenience, I have included a checklist.

Congratulations again to you and all at the District who were instrumental in the presentation and approval of the first component of the capital project, and we thank you for the opportunity to be of continuing service to the District as bond counsel. Please call Jeff Stone (716.848.1327), Ben Clark (716.848.1461) or me with any comments or questions.

Very truly yours,

NOW, THEREFORE,

BE IT RESOLVED, by the Board (by a favorable vote of at least two-thirds of all of the members of the Board), as follows:

Section 1. The class of objects or purposes to be financed pursuant to this resolution is the reconstruction, rehabilitation and renovation of, and the construction of improvements and upgrades to, various District buildings and facilities and the sites thereof, to implement various health, safety, accessibility and code compliance measures required by the State Education Department in connection with any significant capital project and various other measures that are generally described in (but are not to be limited by) the written plan for the Proposition No. 1 Project that was prepared by the District (with the assistance of Young + Wright Architectural) and is on file with the District Clerk, and being subject to the possibility of reallocation, deletion, revision or supplementation, as provided in the public notice of the vote on Proposition No. 1. The foregoing work shall include the purchase of original furnishings, equipment, machinery and apparatus required in connection with the purposes for which such buildings, facilities and sites are used, and all ancillary or related work required in connection therewith, including preliminary costs and costs incidental thereto and in connection with the financing thereof.

Section 2. The estimated maximum cost of such class of objects or purposes is determined to be \$22,100,000, which expenditure is hereby authorized. The plan for the financing of the Proposition No. 1 Project is (1) to expend or apply toward the Proposition No. 1 Project, during the current fiscal year of the District (a) the entire remaining balance (which stood at approximately \$150,000 as of September 30, 2024), plus any additional interest earned, from the District's Capital Reserve Fund, 2016, and then to terminate such fund and (b) \$150,000 from the Capital Reserve Fund, 2021, with such fund then to continue in existence; and (2) to issue up to \$21,800,000 of serial bonds or other obligations of the District that may be lawfully issued under the Local Finance Law (the issuance of which is hereby specifically authorized for the financing of the balance of the estimated maximum cost of the Proposition No. 1 Project), with such amount to be offset by any federal, state, county and/or local funds received by the District for the Proposition No. 1 Project. Unless paid from other sources or charges, such balance of the estimated maximum cost of the Proposition No. 1 Project is to be paid by the levy and collection of taxes on all the taxable real property in the District to pay the principal of such bonds or other obligations, and the interest thereon, as the same shall become due and payable.

Section 3. It is hereby determined that the period of probable usefulness of the class of objects or purposes referred to in Section 1 hereof is thirty (30) years, pursuant to subdivision 97 of paragraph a of Section 11.00 of the Local Finance Law.

Section 4. Subject to the provisions of this resolution and of the Local Finance Law, and pursuant to the provisions of Section 21.00 relative to the authorization of the issuance of bonds with substantially level or declining annual debt service, Section 30.00 relative to the

authorization of the issuance of bond anticipation notes and of Section 50.00, Sections 56.00 to 60.00, Section 62.00, Section 62.10, Section 63.00, and Section 164.00 of the Local Finance Law, the powers and duties of the Board pertaining or incidental to the sale and issuance of the obligations herein authorized, including but not limited to authorizing bond anticipation notes and prescribing the terms, form and contents and details as to the sale and issuance of the bonds herein authorized and of any bond anticipation notes issued in anticipation of such bonds, and the renewals of such notes, are hereby delegated to the President of the Board, as the chief fiscal officer of the District. Without in any way limiting the scope of the foregoing delegation of powers, the President of the Board, to the extent permitted by Section 58.00(f) of the Local Finance Law, is specifically authorized to accept bids submitted in electronic format for any bonds or notes of the District.

Section 5. The temporary use of available funds of the District, not immediately required for the purpose or purposes for which the same were borrowed, raised or otherwise created, is hereby authorized pursuant to Section 165.10 of the Local Finance Law, for the purpose or purposes described in this resolution.

Section 6. This resolution shall constitute the declaration (or reaffirmation) of the District's "official intent" to reimburse the expenditures authorized in this resolution with the proceeds of the bonds, notes or other obligations authorized herein, as required by United States Treasury Regulations Section 1.150-2.

Section 7. Each of the obligations authorized by this resolution, and any notes issued in anticipation of the sale of such obligations, shall contain the recital of validity as prescribed by Section 52.00 of the Local Finance Law, and such obligations shall be general obligations of the District, payable as to both principal and interest by a general tax upon all the taxable real property within the District, without limitation as to rate or amount (subject to certain statutory limitations imposed by Chapter 97 of the 2011 Laws of New York). The faith and credit of the District are hereby irrevocably pledged for the payment of the principal of and interest on such obligations, and provision shall be made annually in the budget of the District by appropriation for (1) the amortization and redemption of any such obligations to mature in such year and (2) the payment of interest on any such obligations to be due and payable in such year.

Section 8. The President of the Board is further authorized to take such actions and execute such documents as may be necessary to ensure the continued status of the interest on the obligations authorized by this resolution, and any notes issued in anticipation thereof, as excludable from gross income for federal income tax purposes pursuant to Section 103 of the Internal Revenue Code of 1986, as amended (the "Code") and may designate the obligations authorized by this resolution, and any notes issued in anticipation thereof, as "qualified tax-exempt obligations" in accordance with Section 265(b)(3) of the Code.

Section 9. The President of the Board is further authorized to call in and redeem any outstanding obligations (at such times and in such amounts and maturities as may be deemed appropriate after consultation with District officials and the District's municipal advisor), to approve any related notice of redemption, and to take such actions and execute such documents as may be necessary to effectuate any such calls for redemption pursuant to Section 53.00 of the Local Finance Law, with the understanding that no such call for redemption will be made unless such notice of redemption shall have first been filed with the District Clerk.

Section 10. The President of the Board is further authorized to enter into a continuing disclosure agreement with the initial purchaser of the obligations authorized hereunder (or any bond anticipation notes issued in anticipation of the sale of such obligations), containing provisions that are satisfactory to such purchaser in compliance with the provisions of Rule 15c2-12, as promulgated by the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934, as amended.

Section 11. In the absence or unavailability of the President of the Board, the Vice President of the Board is hereby specifically authorized to exercise the powers delegated to the President of the Board in this resolution.

Section 12. The District Clerk is hereby authorized and instructed to publish this resolution, or a summary thereof, together with a notice in substantially the form provided by Section 81.00 of the Local Finance Law, in the official newspaper(s) of the District, or if no newspaper(s) have been so designated, then in a newspaper having general circulation in the District, which newspaper shall be designated by the Board in a separate resolution. The validity of the obligations authorized hereby, or of any bond anticipation notes issued in anticipation of the sale of such obligations, may be contested only if:

and an action, suit or proceeding contesting such validity is commenced within 20 days after the date of such publication; or

Innovative Program Waiver Application Procedures

Each application for an innovative program waiver from the Commissioner's Regulations must be completed on the Innovative Program Waiver Application form. Each application must include a Cover Page, Application Narrative, Statement of Consultation and a Statement of Assurance.

- The **Cover Page** of the application includes contact information and a request for consideration of the waiver. The request must be approved by the local school district Board of Education or Board of Directors/Trustees, as applicable, and signed and dated by the Superintendent of Schools, the Chancellor of the NYC Department of Education or the Executive Director of the agency, as applicable.
- The **Application Narrative** portion of the application should be a concise description of the major elements of the innovative program waiver request. It should provide the reader with a clear sense of how the waiver will lead to improved student outcomes and/or increased opportunities for interactions between students with disabilities and students without disabilities. The Narrative must be no more than five (5) single-spaced, typewritten pages. All sections of the Application Narrative must be completed.
- The **Statement of Consultation** identifying the contact information for those consulted in the development of the waiver application. Information regarding any opposition to the application must also be completed.
- A **Statement of Assurance**, which must be signed by the School Superintendent, Executive Director or District Superintendent as applicable, provides NYSED with assurance that the school has committed to the implementation of the innovative waiver as approved; has or will allocate appropriate resources to support the planned activities; will assess the impact of the planned activities; and will develop and submit annual reports to NYSED and the local community on the extent to which the innovative program waiver resulted in improved student outcomes.

Submission and Decision Timelines

The application must be received by NYSED at least 60 days in advance of the proposed starting date of the innovative program waiver. Upon receipt of the completed application, NYSED will issue a written decision to the district or agency within 60 days, with a copy, as appropriate, to the School Superintendent, District Superintendent of BOCES, Executive Director or, as applicable, the Chancellor of Schools of the NYC Department of Education.

Criteria for Approval

Approval of innovative waiver requests will be based primarily on:

- the likelihood that the innovative waiver will enhance student development and/or opportunities for students with disabilities to learn with students without disabilities;
- the extent to which the innovative waiver application identifies the benefits to the target population and describes the program's impact on peers without disabilities (if applicable);
- the potential that the innovative waiver will allow the creation of new teaching and learning structures leading to improvement of educational programs and practices;
- the extent to which the innovative waiver application demonstrates an effective evaluation design to measure achievement of the desired learning outcomes; and
- the degree to which the innovative waiver application confirms consultation with and support by program staff, parents and others, as appropriate.

Annual Reports

If the Commissioner approves the innovative waiver, the district or agency must submit an **Annual Report** to the Office of Special Education no later than 30 days after the end of each school year for which a waiver is granted and each subsequent year until a permanent waiver is approved. The Annual Report must include a detailed summary of the program and an assessment of progress toward the achievement of the desired learning outcomes as described in the waiver application. The Annual Report is the reapplication for continued approval of the innovative waiver.

NYSED will review the Annual Report to determine if the innovative waiver program is meeting its intended results, as stated in the innovative waiver application, regarding the integration and achievement of students with disabilities. Based on the review, the district or agency will be notified if the innovative waiver may continue or if further information or modifications to the program are necessary for continued approval of the innovative waiver. **Failure to timely submit an annual report results in the automatic termination of the innovative waiver.**

Granting a Permanent Waiver

A district or agency granted an innovative waiver for three consecutive school years may be granted a permanent waiver if the program has resulted in improved student achievement or enhanced opportunities for placement of students with disabilities in regular classes. A district or agency granted a permanent waiver is no longer required to submit an Annual Report. Based on a review of the annual report received after the third consecutive year of the waiver, NYSED may determine that:

- the objectives of the innovative waiver were achieved and the district or agency is granted a permanent waiver; or
- although not all of the objectives of the innovative waiver were achieved, due to the potential for positive results, the innovative waiver will be approved for an additional

year with consideration of permanent approval upon the submission of an annual report the following year; or

- the major objectives of the project were not achieved, even with revisions, and the district is not granted a permanent waiver. If further information or modifications are required, NYSED will request that the district or agency submit the necessary information and/or make the modifications required.

Written Innovative Waiver Approval Notifications

Applicants with approved innovative waivers must retain the applications, annual report(s) and signed written notice(s) of approval for all years in which the waiver is in effect. This written notice must be available to NYSED and the public upon request.

Termination

If it is determined that an innovative program is not achieving the objectives established in the application or is no longer consistent with federal or State law or regulation, the waiver may be terminated by the Commissioner. The Commissioner shall provide at least 30 days' notice of a proposed termination. A district or agency that receives notice of proposed termination may submit a written response to the proposed termination, which addresses any deficiencies, to the Office of Special Education no later than five days prior to the date of termination.

Submission

All applications, annual reports and requests for appeal of a determination must be submitted to:

Section II: Application Narrative

1. Provide a brief summary statement that describes the major characteristics of the school/school district (e.g., school size and type – preschool, elementary, middle, or high school), school and community demographics and any unique characteristics.

Wheelock Early Childhood Center houses UPK and Kindergarten for the Fredonia Central School District. Fredonia is a small, rural school district in Western New York with about a 48% poverty level.

2. Provide a concise description of the proposed innovative program (e.g., changes in current approaches, practices and programs).

The proposed innovative program is a 6:1:1 SCIS classroom taught by a teacher certified in both Early Childhood (birth to grade 2) certification and Students with Disabilities (Birth to grade 2). This innovative waiver will meet the needs of the current students in this classroom.

3. Indicate the specific regulation(s) (by citation and description) in sections 200.1, 200.6 and/or 200.16 for which an innovative waiver is requested.

Our District will follow all regulations including, Citation 200.16(i)(3)(iii)(b) The maximum class size shall not exceed 12 preschool students with at least one teacher and one or more supplementary school personnel assigned to each class. Additional related service supports and elementary school support staff are available if need be for our 6:1:1 SCIS class.

The areas targeted for improvement are early literacy, adaptive behavior, and social emotional regulation.

6. Describe the baseline data (present level of student achievement) for each targeted area of achievement described above.

The baseline data will be entry level and exit summaries to analyze the targeted areas of achievement.

Section III: Evaluation, Consultation and Public Reports

Evaluation

7. Describe the method that to be used to evaluate, monitor and assess progress in achieving the desired learning and least restrictive environment outcomes and, where appropriate, the overall effectiveness of the innovative waiver in improving the school environment. Include such areas as communication, parent and teacher participation, and school practices and organization and/or enhanced opportunities for placement of students with disabilities in general education classes or programs. The evaluation must include both formative and summative components.

Our district uses a variety of methods to evaluate, monitor, and assess progress in the areas of communication, parent and teacher participation and school practices to enhance opportunities for our students with disabilities. Our district will use both objectives and data analysis and summative components to evaluate effectiveness of the program. Currently, our district evaluates students minimally every quarter. Likewise, we encourage parent involvement and communication via email, newsletters, teacher phone calls, and through a variety of elementary school events. Additionally, all parents receive yearly surveys and we encourage on-going communication.

Consultations

8. Describe how information about the innovative waiver application was shared with parents, administrators, teachers, and others, as appropriate, affected by the requested innovative waiver.

The innovative waiver was shared with parents via phone, newsletter, and a parent letter. Every parent of the children in this classroom received prompt communication.

9. Were any of the above groups opposed to the application?

- b) Room temperature means the temperature measured at a shaded location, three feet above the floor near the center of the room.
- c) Support services spaces do not include kitchen areas used in the preparation of food for consumption by students.

SUBJECT: USE OF INTERNET-ENABLED DEVICES DURING THE SCHOOL DAY

The District consulted with local stakeholders including employee organizations representing each bargaining unit, parents, and students to develop this policy to prohibit the use of Internet-enabled devices by students during the school day on school grounds. This policy aims to ensure that students remain focused on their academic responsibilities throughout the school day, which includes all instructional and non-instructional periods such as homeroom, lunch, recess, study halls, and passing time.

For purposes of this policy, the following definitions apply:

- a) "Internet-enabled devices" means and includes any smartphone, tablet, smartwatch, or other device capable of connecting to the Internet and enabling the user to access content on the Internet, including social media applications;

"Internet-enabled devices" does not include:
 - 1. Non-Internet-enabled devices such as cellular phones or other communication devices not capable of connecting to the Internet or enabling the user to access content on the Internet; or
 - 2. Internet-enabled devices supplied by the District, charter school, or Board of Cooperative Educational Services (BOCES) that are used for an educational purpose.

Students are generally prohibited from using Internet-enabled devices during the school day anywhere on school grounds.

However, students may be authorized to use an Internet-enabled device during the school day on school grounds:

- a) If authorized by a teacher, principal, or the District for a specific educational purpose;
- b) Where necessary for the management of a student's health care;

(Continued)

- e) On a case-by-case basis, upon review and determination by a school psychologist, school social worker, or school counselor for a student caregiver who is routinely responsible for the care and well-being of a family member; or
- f) Where required by law.

Students must be permitted to use an Internet-enabled device where the use is included in the student's:

- a) Individualized Education Program (IEP); or
- b) Section 504 Plan.

Note: Each school within the district will establish a plan to identify and verify students who need access to a device during the school day and communicate this information to all faculty/staff.

On-Site Storage of Internet-Enabled Devices Including Cell Phones

[Districts must provide one or more methods for on-site storage where students may store their Internet-enabled devices during the school day, which may include student lockers. Example language has been provided. However, the District should customize this section to reflect its actual practices.]

Students must store their Internet-enabled devices in ~~designated on-site storage areas~~ their lockers during the school day. ~~On-site storage areas may include, but are not limited to, student lockers, designated storage bins in classrooms, or secure storage areas in the school's main office. The designated on-site storage areas must be easily accessible to students and provide adequate security to ensure the safekeeping of the student's devices.~~ The District will communicate the procedures for storing and retrieving devices, ensuring that students understand their responsibilities ~~in using the on-site storage facilities provided.~~

Methods for Parents to Contact Students During the School Day

[Districts must provide one or more methods for persons in parental relation to contact their student during the school day. A list of examples has been provided. However, the District should customize this list to reflect its actual practices.]

To accommodate necessary communication, parents or persons in parental relation may use the following methods to contact their student during school hours while adhering to this policy:

- a) School Office Phone: Parents or persons in parental relation may call the school's main office, and the office staff can relay messages to the student or call the student to the office to speak with their parent or person in parental relation.

~~(Continued)~~

**SUBJECT: USE OF INTERNET-ENABLED DEVICES DURING THE SCHOOL DAY
(Cont'd.)**

- ~~b) — Designated Contact Email: Schools may provide a designated email address for parents and persons in parental relation to send messages. These emails may be monitored by school staff who can then pass the messages on to the students.~~
- e) b) Classroom Intercom System: In case of an emergency, the school's main office can use the classroom intercom system to notify students directly or ask them to come to the office.
- ~~d) — School Messaging Application: Schools may use a secure messaging application or platform where parents or persons in parental relation can send messages to their student. The messages can be monitored and delivered by school staff.~~
- ~~e) — Written Notes: Parents or persons in parental relation can drop off written notes at the school's main office, which can then be delivered to the student by school staff.~~

Parents and persons in parental relation will be notified in writing of the methods that are available for contacting their student during school hours upon enrollment and at the beginning of each school year.

Student Discipline for Accessing Internet-Enabled Devices During the School Day

The District is prohibited from suspending a student solely for accessing internet-enabled devices in violation of this policy.

Posting and Translation of Policy

The District will post this policy in a clearly visible and accessible location on its website. Translations of the policy into the 12 most common non-English languages spoken by limited-English proficient individuals in the state will be provided upon request by a student or other persons in parental relation to a student.

Reporting and Mitigation Action Plan

Beginning September 1, 2026 and annually thereafter, the District will publish an annual report on its website detailing enforcement of this policy within the District in the prior school year. This report will include non-identifiable demographic data of students who have faced disciplinary action for non-compliance and analysis of any demographic disparities in enforcement of this policy. If a statistically significant disparate enforcement impact is identified, the report will include a mitigation action plan.
