4 Students who take four (4) mathematics credits through the approved course sequencing will only be
5 required to take three (3) science credits. Students who take four (4) science credits through the approved
6 course sequencing will only be required to take three (3) mathematics credits. It is understood that a
7 cumulative total of seven (7) mathematics/science credits are required for graduation.
8

9 In order to graduate from the District, the student must meet State assessment requirements. In
10 addition, all students must complete the state-mandated college and career readiness requirements
11 as part of their district graduation requirements by the end of their junior year.
12

13 The fourth year of high school shall not be required for graduation if a student has completed all
14 requirements for graduation and attends a postsecondary institution as a full time student or is
15 exempt from the compulsory attendance requirements.
16

17 Students receiving educational services pursuant to a Gifted Individualized Educational Program
18 (GIEP) under Chapter 16 of the State Board of Education regulations may receive
19 modified and/or accelerated course instruction, scheduled concurrent college course instruction,
20 as well as other individualized instruction. Gifted students may accelerate through the
21 curriculum, may not follow a traditional grade sequence, and may graduate ahead of their class.
22 Graduation requirements as provided herein may be modified for gifted students in the GIEP on
23 an individual student basis. Where a student's GIEP provides modification to the graduation
24 requirements of this policy, the student's GIEP shall control; provided, however, that all gifted
25 students shall complete the required number of graduation credits, or their equivalent, for
26 graduation.
