Alumni Spotlight

Alumni: CURRENTLY **WE DON'T HAVE ANOTHER NOMINEE** – WE'RE TAKING REQUESTS FOR A JUNE ALUMNI NOMINEE!

USE THE **QR CODE BELOW TO SUBMIT A REQUEST FORM.**

Our schools are proud of the students who once walked our halls—and the many paths they have taken since. Each month, in this newsletter, we will highlight two past graduates whose stories reflect the values, opportunities, and experiences that help shape success beyond graduation. Additional highlights may be included in other projects as well.

The Alumni Spotlight celebrates former students who are making a positive impact through their careers, service, leadership, or contributions to their communities. We invite families, alumni, staff, and community members to help us recognize these stories by submitting a nomination. Together, we can honor our past while inspiring our current students.

- FastSigns Proposed Estimates for Window Film Safety Project - Sheffield Elementary Middle School
- Resolution Calling for Increased State Funding
- PA's Basic Education Funding Advocacy Letter

Warren County School District Employee Spotlight

Administrator - Lacey Schuler

Lacey's entire special education teaching department is brand new with the exception of two other veteran teachers. She's had to guide and assist seven new special education teachers with the necessary requirements of teaching in all four "buckets" - LS; LSS; AS; ES, as well as the IEP writing process. Additionally, all of them are emergency certified and have no background in education. BWMS has been running smoothly and were hearing positive comments from administration, faculty, staff, and parents that the teaching staff is doing great things!

Teacher - Morgan Briggs (SAEMS)

Mrs. Briggs invests countless hours planning lessons, adapting materials, and finding new ways to reach her students. She goes beyond simply delivering content - she pays attention to their individual needs, offers extra support, and adjusts her approach to lesson planning to ensure no one is left behind. We often see her staying late, providing encouragement, and re-explaining concepts in different ways. She truly cares about students.

Teacher - Erin Richardson (EMHS)

Erin Richardson is an outstanding middle school math teacher and a true leader within the Eisenhower community. She brings a positive upbeat energy to her class room and connects with her students, building trust and encouraging a love of learning. She also does an incredible job overseeing the schools PBIS program. In addition, she serves as the middle school student counsel advisor. She constantly goes above and beyond and is a valued part of the school community. She is inspired by her high school English teacher Mrs. Snyder for always encouraging her. An accomplishment she is proud of is that she has been working at EMHS for 19 years! Advice she would like to give her students is, Middle school is only a small chapter, not your story. If she was not in education she would of loved the career as a horticulturist, fitness trainer, or personal health coach.

Support - Sydney Blair (WAEC)

Sydney goes above and beyond expectations for her job. She truly is the best at what she does. Sydney has presented with Betsy Sobkowski to teach others how to properly collect data for IEP's and her extensive knowledge has helped to create a better system for collecting IEP goals. WAEC relies on her so much - from assisting in the classroom to helping in special education rooms. Sydney was brought to the ES because her sister had recently become a 1st grade teacher at WAEC and suggested she try subbing. She was the building sub at WAEC for a year and found herself always wanting to be in the ES room. There are a lot of kids she's really proud of. You see a lot of progress and growth at the elementary level, and she's happy to play any part in it. Some advice she would give to her students is, be accountable. Be respectful.
