MAP testing will continue through next week, for students in Grades 6–10 to measure growth in reading, math, science, and language usage. Results will serve as a baseline for the year and help tailor student support through the MTSS program.

Here are some suggestions you can do to help everyday and especially during testing week:

- Ensure your child arrives at school on time.
- Have your child eat a healthy breakfast at home or at school.
- Ensure your child gets a good night's sleep.
- Gently encourage them to do their best.

Staff Spotlight

Mr. Doeblin

Resource

Hi! I am Devin Doeblin- I'm in my 4th year teaching as a resource teacher and MTSS team member at Ophir Middle School and Lone Peak High. Teaching at BSSD gives me the incredible opportunity to collaborate with inspiring students, dedicated colleagues, and a supportive community. Outside school, you'll find me snowboarding, fishing, camping, playing guitar, or cheering on my Buffalo Bills!

Hello! My name is Vanessa Wilson, and I'm excited to begin another year with our students and community. I have been part of the district since 2001, and over the years I've had the opportunity to wear many different hats and experience lots of changes.

This year, I'll be teaching 11th and 12th grade Math Applications and Interpretation, Theater, and high school Resource. I'm also excited to take on Expedition Yellowstone and Driver's Education. When I'm not at school, I'm often still in the building! I enjoy being involved in community theater and tap dancing. I also love spending time outdoors with my dog, Thisby.

I'm looking forward to a great year filled with math problems, theatrical productions and hiking in the woods!
