Business Meeting
followed by

"IEP Basics" Presentation
What is an IEP? - Tips to prepare for an IEP

The student's IEP is based on their unique and individual needs – not on their disability category. Knowing more about IEPs, IEP meetings, and how to work together with your school team can ensure a student's needs are being met and they are on track for success and independence.

The CAC Meeting and Parent Presentation will be held via Zoom. For additional information, accommodations, and/or translation services, please contact the North Inland SELPA **48 hours in advance**.
