Summer Programs 2025-2026

At La Joya ISD, we are committed to providing every student with opportunities for academic success and personal growth. Our **Summer School Program** is designed to offer both **academic support** and **enrichment experiences** that empower students to thrive.

Through targeted instruction, engaging hands-on learning, and dynamic enrichment activities, our program ensures that students continue their educational journey in a supportive and stimulating environment.

We look forward to a summer filled with learning, discovery, and achievement!

STEM/Tech Camps (6th & 7th Grade)

STUDENTS: Current 6th and 7th grade students who qualify by achieving meets and above on STAAR Assessment.

PURPOSE: Early exposure to hands-on learning and STEM education is one of the best ways to engage students and ultimately set them on a long-term path for success in college and a career of their choice.

FOCUS: The camps will focus on developing students' critical thinking, collaboration, creativity, and communication while emphasizing innovation and entrepreneurship. A key component will be the engineering design process, demonstrating its real-world applications. Students will gain hands-on experience with 3D printing, laser printing/engraving, tech and digital design, sublimation, and coding/programming with drones and robotics.

Support Services

Available as applicable to each summer program

Migrant	In class support focused on literacy and Math to accelerate learning.
OFSDP	Provides accelerated instruction to mitigate the loss of instructional time during the regular school year.
Sp Ed/504	Special education and 504 services provide extra instruction or related services
Dyslexia	The program will focus on enhancing reading fluency, comprehension, writing, and spelling.
GEAR UP Grant	The GEAR UP grant helps students prepare for college by providing academic support, college and career guidance. Current 7th Grade & 11th Grade at LJHS & PHS.

La Joya ISD Summer Programs are aligned to our District Strategic Priorities and are designed to support academic growth, expand enrichment opportunities, and ensure every student has access to meaningful learning experiences.

Through focused instruction and expanded programming, we remain committed to advancing student achievement and preparing learners for continued success!
