About Me:

This will be my fifth year in education and my fifth year at Washington Irving! I graduated from the University of Oklahoma with a bachelor's degree in Early Childhood Education. I have always known that I wanted to teach from a young age.

I have grown up in the Edmond/ Oklahoma City area my whole life and I have built a great community here.

Outside of the classroom, I love to explore new places, watch movies, read, do yoga, and spend time with my friends and family.

My why for being in education:

I love being able to make a difference in my student's lives, whether it be big or small. I have already learned so much during my time at WI and I know that I will learn so much more from the next group I get to teach.

I always strive to make each of my students feel loved, encouraged, and excited to learn each day.
